January, 1976

1976 The Bicentennial Year

The year of the Bicentennial has finally arrived, and along with it the prospects of an even more enjoyable year of coin collecting. This is the first of our 1976 catalogs and supplements. Presented here are a large number of better date and type coins and many photographs of the actual coins. In addition, we have several interesting articles for your reading pleasure.

Our Guarantee, Your Assurance

In addition to the many beautiful coins offered here, Steve Ivy Rare Coin Co. also offers you the benefit of our grading guarantee. With this guarantee, you're assured of receiving a properly and accurately graded coin. We've also published our grading standards in a pamphlet, "The Quantitative Grading System". In this pamphlet, we tell you how

we grade and how we relate the quantitative number grade with the conventional letter grade. If you don't have a copy, just write and we'll send you one.

Fair Pricing Means True Value

Buying quality coins at comparatively high prices is not true value. True value is buying a high quality coin that is properly graded and fairly priced. At Steve Ivy Rare Coin Co., we believe that true value is your most important consideration when buying your coins. That's why it's our most important consideration, too. Just as each coin is carefully graded, each coin is carefully priced.

Steve Ivy Rare Coin Co. wants you to become one of our many satisfied collectors and, by offering the high quality coins that you want, accurately graded and fairly priced, we're confident that you'll enjoy collecting coins more in 1976.

Pictured on the cover are the following coins: 1889 Three Cent Nickel in Gem Proof (65), 1850 Half-Dime in Gem BU (65), 1807 Bust Dime in Gem BU (65), 1893 Quarter Dollar in Gem BU (65), 1920 Quarter Dollar in Gem BU (65), and an 1854 Half Dollar with Arrows in Gem BU (65).

Our Guarantee

Any coin purchased from Steve Ivy Rare Coin Co., after May 1, 1975, will adhere to the standards of the ANA Grading Board. If not, the full purchase price will be refunded to the original purchaser within 30 days of the decision by the Grading Board. This applies to the grade itself and not to the degrees within that particular grade (i.e. AU (50) vs. Ch.AU (55)). This allows for legitimate differences of opinion. Steve Ivy Rare Coin Co. retains the option of refunding your money or replacing with a suitable coin.

Steve Ivy Rare Coin Co.

The originator of the guaranteed grading system

Dear Customer,

The year 1975 saw many changes for our company as well as the entire industry. Our institution of the Guaranteed Grading System was certainly our most important accomplishment and perhaps the most important for the entire industry. Since we first offered our Guarantee, several other companies have followed suit. We certainly applaud these efforts and we sincerely hope the entire industry will someday offer a grading guarantee. We know from experience that grading guarantees greatly raise the confidence levels of both the collector and investor. Once this has been done, there is almost a limitless source of new business.

1975 was a year of reorganization for most of the coin business as it was with ours. The terrific boom of 1974 had lead to many excesses. We have strived during the last twelve months to make our company the most efficiently managed and most viable in the entire industry. By doing this, we feel that we can provide our customers with the best value available today. Our retail dollar volume associated with operating expenses is probably the lowest of any major firm. By keeping our prices fair for high quality coins, we feel that we can continue to grow and prosper until we eventually obtain our goal of being number one in the rare coin business.

A Word About Quality

Over the past six months, we have paid special attention to buying Gem quality coins. This listing contains many of these coins. Our Gem BU (65) coins are not only exceptional in terms of coins in general, but also in terms of Mint State and Proof Coins. In other words, they are "the best of the best".

Many firms offer high quality coins. The coins offered here are not "Commercial Gems", but are Gems in the truest sense of the word. Our buyers without exception are as much numismatists as they are coin dealers. They appreciate and understand the subtle differences that separate Gem coins from Choice coins. Because of this,

probably over half the coins offered to them would qualify as some other dealer's M.S. 70's. Quality is our most important consideration, while the price we must pay is secondary. So if you appreciate quality, and are willing to pay fairly to obtain it, we feel that Steve Ivy Rare Coin Co. can better satisfy your needs than any other firm in numismatics.

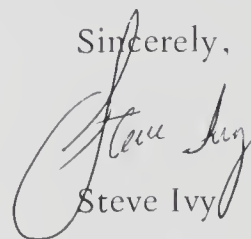

Most of our circulated coins are also much better than average quality. We take special care not to buy coins with defects or scratches. We are not saying that our coins have none, but just that we pay a little more for nice coins. We don't want any "bargains", and we feel our customers are astute enough not to want any either.

Our Predictions For 1976

This last year has seen the smallest yearly gains in coin prices in the last five years. In fact, being perfectly honest, some of the gold coin values actually went down. Considering the facts that our country has just experienced its severest recession since the 1930's, and that coins had just realized an unprecedented 200% appreciation over the previous three years, it is a tribute to numismatic investments that prices performed as well as they did.

The last five months of 1975 showed a heavy influx of new buyers. In fact, the last quarter of 1975 was much better than the corresponding quarter in 1974. The country is now virtually out of its recession, and with its emergence comes the prospect of increased inflation. In view of all this, it is our estimation that the 1976-1977 period should show significant advances in rare coin prices.

Sincerely,

Steve Ivy

The Staff of Steve Ivy Rare Coin Co.

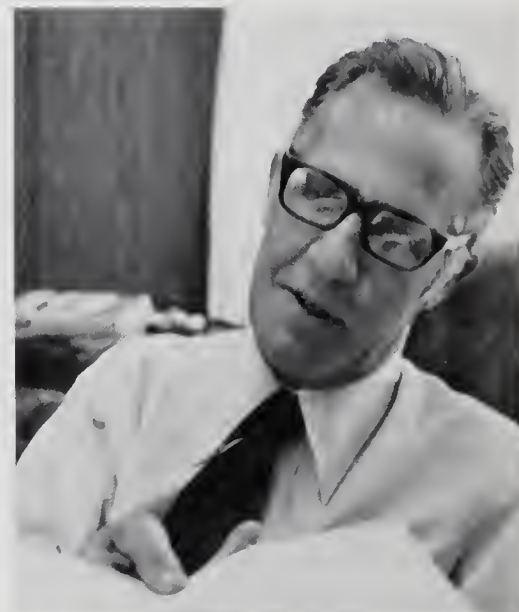

President

While certainly not one of the oldest, Steve Ivy is considered one of the most experienced and knowledgeable coin dealers in the country. Steve has attended over 300 coin shows dating back to 1961, including the last 10 ANA Conventions. In all, Steve has traveled over a half million miles attending various numismatic functions. No one in the entire industry has a better grasp of market complexion and true value and rarity than Steve.

Steve began his mail order endeavors in 1967 while attending the University of Texas. Since that time, sales have increased over 200 fold to in excess of ten million dollars last year. Steve is indeed a "shirt sleeve" president, often working over 70 hours a week in an effort to keep our company ahead of our competitors.

Chairman of the Board

Robert Ivy holds his Doctorate in Jurisprudence from the Baylor School of Law and has actively practiced his profession in the Dallas-Fort Worth area for over twenty years. Currently, he is a director of the Texas Trial Lawyers Association and is past president of the Tarrant County Trial Lawyers Association. In addition to his law practice, Robert has been a member of the Board of Directors of several firms in the Dallas-Fort Worth area.

In 1974, the growth rate of the Company was such that Steve called upon his father to join the firm as chairman. Since that time, Robert has been active in management and long-range corporate planning. Robert shares Steve's conviction to make Steve Ivy Rare Coin Co. number one in the industry.

Harry Walker, who is General Manager of our operations, personally oversees each and every order that you place. Harry, a numismatist for 20 years and a holder of a B.B.A. from the University of Texas, combines his numismatic and business knowledge to insure that you receive the best value for your order in record time.

Director of Sales, W. Mike Hinkle, has been in the coin business for ten years. Mike attended the University of Kentucky and was only the third person ever to study numismatics as an undergraduate curriculum. Needless to say, Mike possesses a great deal of knowledge in rare coins and is especially interested in colonial and pattern coinage. Mike's grasp of the market and numismatic background allow him to be one of the foremost buyers of rare coins in the country.

Executive Vice President, Mike Haynes, graduated from Southern Methodist University with a bachelor's degree in mechanical engineering and is currently in pursuit of his master's degree in finance and marketing. Mike keeps a watchful eye on our financial status as well as coordinating and developing our advertising and managing personnel.

In addition to his duties with our sister company, World Gold Trading, Charles Clifford services many of our want lists and aids in the preparation of our coin listings. A graduate of Centenary College with a degree in geology, Charles has had a serious interest in rare coins for the past eight years. With his experience as an account representative for two New York Stock Exchange member firms, Charles can assist you in developing your rare coin portfolio.

Harry and Mike are inspecting a recently purchased collection of Morgan Dollars. Each coin that we buy is carefully graded and priced so that you receive what we feel is the best value in the coin business today.

Leonard Saunders, a native of California, has been involved in professional numismatics for over 10 years. While attending college in Los Angeles, he managed a coin shop, and has since worked with several major dealerships. Known for his expertise throughout the industry, Leonard is a welcome recent addition to our staff.

Linda Ivy (l.), Steve's wife, and Doris Ivy (r.), Robert's wife, supply a large portion of our secretarial work both in the office and while attending many of the coin shows across the nation.

Our accounting functions are directed by Randall Smith. Randall, who has had three years of experience working in public accounting for a regional CPA firm, received his degree in accounting from Hardin-Simmons University.

Judy Davidson (l.) and DeEsta Woodard (r.) are two integral parts of our company. Judy coordinates the secretarial staff and manages our paper flow. In addition to her secretarial duties, DeEsta typesets our catalogs on the IBM Composer.

How Rare Is It?

by Walter Breen

Despite the great reputation of a few dates like 1871-S, the few mintmarked Half-Dimes which qualify as rare in mint state are neglected. The 1838-O is easily a \$2000 coin in that condition, fewer than five being located with any claim to mint state. 1840-O with drapery is scarce in all grades, and it is nearly as rare as '38-O in even AU; I cannot now recall over two with any reasonable claim to Unc. All of the "O" Mint dates prior to 1853 with arrows are rare in mint state, the highly touted 1842 and 1848-O's least so. Of the 1853-O, there are three proof-like Gems, one of which brought \$1,000 over four years ago in one of Lester Merkin's sales. The "S" Mints, 1863-71, are all rare in Unc., and the majority of circulated examples in the sixties show signs of having been used as buttons (shanks removed from reverses).

Among the Dimes, 1796 is generally available even in Unc. for a price; many were saved as first year of issue. Other dates, 1797-1807, are less often seen Choice, the comments in the April, 1966 Lester Merkin Auction still holding true; some dates, such as 1797 13 stars, 1798/7 13 reverse stars, 1801/2/3 and 1804 13 stars are, for all practical purposes, unobtainable in mint state, though of these only the 1798/7 with 13 stars and 1804 13 stars are great rarities in more worn conditions.

The Red Book lists the 1814 small date only at equal price with the large, though it is twenty times rarer. The 1828 large date is a very rare coin anywhere near mint state, as is the 1829 with largest 10 C. (filling space between border and eagle). To date, only about 4 or 5 1830/29 coins are reported. I found the first two and placed them in auctions during the 1960's, letting them find their own level. It was up to a California promoter of overdates to get them listed in the Red Book. At the 1971 and '72 A. N. A. Conventions, I was asked several times to examine particular 1830's, but none of those turned out to be overdates. Remember to look for lower r. serif of 2 and part of its base at right bottom of 3, and look for the traces of knob within zero.

The rarities in the Liberty Seated type, grading aside, include the 1841 "no drapery" from a drastically lapped (repolished) die. Of four specimens reported, one is a Proof and the others are circulated former Proofs. The 1844 has been

greatly exaggerated in rarity and hoarded. Free of such attentions, the rarer 1846 remains neglected. Early "S" Mints, 1856-74, are extremely difficult to find Uncirculated, though most of them are available worn for a price. A few "O" Mints, such as 1843 and 1845, unknown in mint state for years, have suddenly come into their own with discovery of one or two Choice examples; 1860-O similarly, but now there are apparently three Unc.'s known, which have sold well into four figures. Of the 1853 without arrows, there is a tiny group of Unc.'s, apparently saved with the Half-Dimes and Quarters by H. P. Newlin, but long since dispersed. The date is rare above VF.

Two dates which have attracted speculator attention of late are 1866 and 1867, with low mintages of business strikes. As they are generally available in Proof, the tendency has been to sell the rare first strikes as Proofs for those extra few dollars.

The earlier "CC" Mints, say 1871 to 1874, are prohibitively rare in Unc., and for reasons unknown the entire mintage of 1873-CC without arrows disappeared except for one of the coins shipped to Philadelphia for the annual assay—believed rescued by A. Loudon Snowden, as it was in his possession years afterwards, eventually passing to J. W. Haseltine, William H. Woodin, Adolphe Menjou and Louis Eliasberg.

Of the later rarities, the whole story will probably never be known. Why, for instance, were so few 1885-S Dimes made? Several dozen survive, but I have no record of a fully Unc. example. On the other hand, the 24 1894-S Dimes were made from two obverse dies and one reverse, differing minutely in position of date, and all 7 of the survivors are Brilliant Proofs with the exception of one that was recovered from circulation and last noticed in Kagin's hands. One of the Proofs was sold to an investment firm at the 1972 A. N. A. Convention, for a reported \$50,000.00. This is well over tripling any previous record of sale.

The other rarity in the Barber series, 1893/92, apparently comes from two different obverse dies, both of which must have been lapped to efface the traces of the 2. To date, fewer than eight are reported. A possible third overdate is found in Proof. This has heavy die file marks at the 3, apparently to efface an unwanted 2. It was discovered by Ed Piontkowski. More 1893/2 coins are reported, but examination of most of them to date has led only to nicks, discoloration, or an occasional recut date. Later rarities are few indeed: the 1916 in Matte Proof, and possibly, the 1942/41-D in strictly mint, mint state with a clear 1 at left of 2. All four I have seen of the Denver overdates show only fragments of top and bottom of the 1, probably from die lapping obliterating the rest. None of these is full Uncirculated. I am not sure that even four Matte Proofs can be traced of the 1916.

Our Heritage in Coinage Design

First of a three part series

by Jim Harris

With Proof Sets and Uncirculated Coin sets of our 1776-1976 Bicentennial coins now being received by those who ordered them earlier from the mint and the circulation issues beginning to be released to the public, many lively conversations at cocktail parties and other places where people meet are probably centering around the new coins. Collectors have known of the coming of these coins and have been familiar with their designs for at least a year.

No matter what anyone thinks about any of the new designs, it must be conceded that they are more artistic and better executed than most of those of the past. Before we had U. S. coins, several of the separate colonies had issued coins of their own, and many of these colonial forerunners of our present coinage projected fairly crude pictures, and had some odd words and figures on them such as horses and plows, laurel wreathed heads of leaders, many eagles and shields, crowns, deer and even an elephant.

In 1776, the first Continental Congress attempted to establish a coinage because it was needed in the conduct of trade. Congress had patterns made for what they hoped would be our first "dollar". It had a picture of a sun with rays shining on a sun dial and the mottos WE ARE ONE, MIND YOUR BUSINESS and FUGIO (Latin for "I Fly").

Coins were never made from these patterns because the Continental Congress had no money for the building of a mint, but in 1887 the Congress let a contract to a private minter for copper One Cent pieces. These coins, called Fugio Cents, were copied very closely after the Continental Dollar patterns and had most of the same design features including the odd mottos.

For sixteen years after the signing of the Declaration of Independence, we had no United States money except the Fugio Cents and privately minted coins remained the money of the people until The Constitution of the United States was written and George Washington was elected President. Then with new prestige and legal methods of raising funds by taxation, Congress voted to establish a mint and standardize our money.

At this time we came near to having coinage of a monarchical style adopted. Before then, coins issued by European Monarchies nearly all displayed a picture of the ruler of the country or his coat of arms. When our coinage bill was first drafted in 1792, it specified that the Dollar show

President Washington's head, and patterns were made and shown to the members of the Congress. Some members objected to continuing the Monarchical custom, and the idea was overruled.

Since the great national pride and glory was in our newly won freedom, the bill, as finally passed, prescribed that the word LIBERTY and an "impression emblematic of liberty" appear on one side of all coins. This law was followed for a hundred and forty years until we began our present custom of making all our coins commemoratives to great Americans.

In 1783, the Assistant Superintendent of Finance had a group of patterns made for use in trying to sell the members of Congress on some ideas of his coinage. These were not official, and his ideas were not adopted; but these patterns contained the first appearance on a coin of the letters U. S. and had a circle of thirteen stars on the obverse and a wreath on the reverse.

Stars and wreaths have continued to be used, primarily as space fillers, on most of our coins since then. Wreaths have been of many kinds and sizes depending on the space which needed to be filled. Stars have been placed wherever they best fit, and have been of two types and many sizes. At first, six-pointed stars copied from French Heraldry of the middle ages were used; but in 1892, Charles Barber, then Chief Engraver at the mint, designed new Dimes, Quarters and Half Dollars using the six-pointed stars on the obverse and five-pointed ones taken from English Heraldry on the reverse. Since then only five-pointed stars have been used.

For a hundred and fifteen years, all but two U. S. coins were designed by men who were die engravers, not sculptors. Most of the designers simply symbolized liberty with an engraving of a woman's head with the word LIBERTY above it or on a headband. They sometimes added the floppy freedom cap which had been the insignia of a freed slave in ancient times. The first Liberty Heads were so unbeautiful, that in 1795 Gilbert Stuart, the great artist who had painted the official portrait of President Washington, was asked to design a new Liberty. He sketched the one coin collectors know as the Draped Bust Head, and the mint's engraver copied it as best he could onto the die.

The first eagles pictured were much more true to life than most of the later ones. Citizens ridiculed their scrawniness so badly, that the engravers substituted the spread winged eagle with a shield hiding its thin breast. It was this design that Benjamin Franklin and Thomas Jefferson later chose for the Great Seal of the Nation.

The Monetary History of the United States of America

Early America

by W. Mike Hinkle

Last of the series

In the early 1800's, the country was still largely Agrarian, the cities contained 7% of the country's population. Commercial banking was not highly-developed. The charter of the First Bank of the United States expired in 1811. The Embargo of 1807 and the Non-Intercourse Acts brought a growth in domestic industry, primarily textiles. Heavy government borrowing caused a drain in the specie reserves of the New England Banks. The result was the suspension of specie payments in August, 1814.¹

The number of chartered banks had risen from 88 in 1811 to 208 in 1815. Their obligations during the same period rose from \$2.3 million to \$4.6 million. This general rise in the money supply led to a rapid increase in prices and inflation. With export trade negligible, the ability to import continued inflation and credit expansion. The adverse balance of payments left the monetary system severely disordered. The on-rush of foreign competition and the dumping of textiles by Great Britain, hurt the textile industry and added to the monetary difficulties.²

This period is also notable for the boom in real estate values and general speculation. A return to specie convertibility would bring contraction and deflation of the money supply. By January, 1817, the Second Bank of the United States instituted a policy of redeeming its notes in specie in an effort to bring about a sound and uniform currency.

A contemporary observer, Condé Raquet, wrote to the great economist, David Ricardo, on the subject:

You state in your letter that you find it difficult to comprehend why persons who had a right to demand coins from the Banks in payment of their notes, so long forebore to exercise it. This no doubt appears paradoxical to one who resides in a country where an act of parliament was necessary to protect a bank, but the difficulty is easily solved.

The whole of our population are either stockholders of banks or in debt to them. It is not the *interest* of the first to press the bank and the rest are *afraid*. This is the whole secret. An independent man, who was neither a stockholder or debtor, who would have ventured to compel the banks to do justice, would have been persecuted as an enemy of society . . .³

A general loss of confidence in the banks brought a premium on specie. The domestic specie drain and the external drain to pay for imports forced the Bank of the United States to cease expansion of its notes. The repayment of the Louisiana debt in late 1818 and 1819, constituted some \$4 million owed abroad and payable in specie. The bank was responsible through Treasury deposits. In a series of deflationary moves, the bank forced contraction and precipitated the Panic of 1819.⁴

Those who suffered the greatest were late-comers who had bought land at a very high price. Stay laws to bring about debtor relief were considered in a majority of the states but final passage occurred only in the Western States.⁵

The Panic of 1819 was the United States' first great panic, and coupled with the subsequent depression, prompted the great writers and minds of the period to discuss and debate the causes and remedies. These groups polarized into two schools of thought on the subject, the "Monetary Expansionists" and the "Sound Money" proponents.⁶

The Monetary Expansionists believed essentially that a remedy to the situation could be brought about by suspending specie payments. This proposal would bolster failing banks, eliminate the scarcity of money, and end the depression by raising prices and aiding debtors. Inherent in those ideas was a proposal to issue inconvertible currency and outlaw depreciation. Four Western States, Illinois, Missouri, Kentucky, and Tennessee, actually established inconvertible paper in the

state-owned banks.⁷

The Sound Money interests believed depreciation would nevertheless occur from an inconvertible paper scheme. They reasoned that in a business cycle, the expansion of bank credit and monetary supply would bring a proportionate rise in prices. This situation coupled with the specie drain abroad would lead to eventual contraction and depression. Only rigid enforcement of specie payments would allow the banks to maintain confidence. The Sound Money proponents concluded that excessive bank credit was primarily responsible for the Depression.⁸

The return of Sound Money principles left the debtors repaying in money of greater value than they had borrowed. The public was granted more liberal terms in repaying the Federal Land Debt.⁹

The Second Bank of the United States played a dominant role in the financial affairs of the nation. Its Federal Charter gave the bank an overwhelming advantage in commercial affairs. As a fiscal agent for the United States Government and the safe depository for Treasury funds, the bank was responsible for transferring funds and disbursing government loans and payments quickly and economically. Neither by law or tradition was

the bank an agent with public responsibility.¹⁰ During the Panic of 1819, it was the United States Treasury who aided the state banks with deposits to allow them to weather the storm in an attempt to provide a central banking function.

State banking remained primarily as a method to gain profits and not for providing safe and uniform currency, or stabilizing business. Even after the bitter lesson of the Panic, bad banking practices continued because of ineffective regulation. The banks continued to avoid paying specie on outstanding notes or liabilities whenever possible. The "wildcat" banks were an extreme example. Located in the deep woods or other obscure locations, a wildcat was more likely to find the bank than the bank note holders. These banks deliberately sought to delay or prevent the return of their notes. Poor transportation, communication, and lack of an effective clearing system allowed such abuses to continue.¹¹

After 1823, Nicholas Biddle, President of the Second Bank of the United States, sought to assume a central banking function. The Crisis of 1825 brought a reduction in credit expansion, due to the bank's pressure. After a liquidation period, the bank expanded its loans to ease the difficulty.¹²

United States Coins For Sale

All photographs are of the actual coins offered for sale. Some of our more beautifully toned coins are not pictured because black and white photography does not do them justice. These coins must be seen to be appreciated.

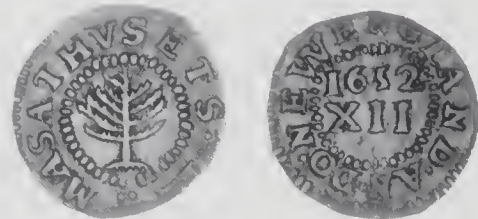

The numbers shown in parenthesis in the Colonial section refer to the page number where the coin can be found in The Guide Book of United States Coins by R. S. Yeoman.

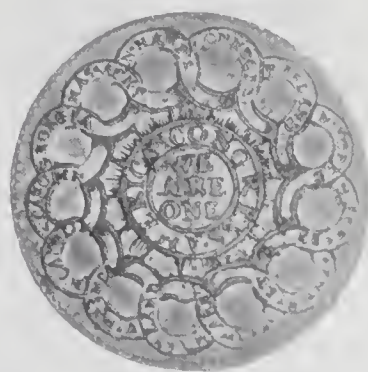

COLONIALS

- 1616 EF (40) Somer Islands Sixpence. Large portholes variety. The first coinage struck for the English Colonies in the New World in about 1616. Four denominations were issued; the Shilling, Sixpence, Threepence, and Twopence, all denoted by Roman numerals. When these circulated, they were known as "Hogge Money" because a hog serves as the prominent obverse device. A Galleon with the flags of St. George flying from the masts is featured on the reverse. The islands were originally named for Sir George Somers who was shipwrecked there in 1609 while enroute to the Virginia Plantation. Earlier, one Juan Bermudez (the islands were later renamed Bermuda in honor of this explorer) stopped there leaving a few hogs, whose population multiplied rapidly. When the Somer Party ended up there, the hogs on the island served as an abundant food supply for them. This coin, we feel, is far and away the *finest* example ever offered for public sale. This in itself is quite noteworthy considering that Stacks, in describing a Somer Islands Sixpence for the Massachusetts Historical Society Sale in 1973, felt that piece was probably the finest extant example and it brought \$28,000. The presently offered coin has a planchet and detail that can only be called "incredible" because this issue normally comes with severe corrosion due to the atmospheric conditions on the islands. The exceptional quality, with *virtually no corrosion*, must be seen to be fully appreciated. This example will never be equalled and will prove to be the highlight of any collection. (p. 13) P. O. R.
- 1652 EF (40) Pine Tree Shilling. Wide, thin planchet. This is the Waldo Newcomer specimen, Lot 3065, later resold by New Netherlands Coin Co. in 1968. An excellent coin with an impressive pedigree. (p. 16) . . . 1,250.00

- 1652 EF/AU (45+) Pine Tree Shilling. Small planchet, in imitation of English coins. Identifiable as a later issue. (p. 16). 1,575.00
- 1722 VF (20) Hibernia/Woods Half-Penny. First type, harp at left. (p. 21) 115.00
- 1723/2 Ch AU (55) Hibernia/Woods Half-Penny. Large 3, 11 harpstrings. These coins were unpopular in Ireland, and most were sent to the American colonies. High grade specimens are seldom encountered. (p. 21) Worth 495.00
- 1723 AU (50) Hibernia/Woods Half-Penny. (p. 21) Cheap. 150.00
- 1723 AU (50) Hibernia/Woods Farthing. These high grade colonial issues still have tremendous potential for future price appreciation. These historical pieces would make a fine addition to any collection or investment portfolio. (p. 21) Reasonable. 175.00
- 1723 Brown Unc. (60) Hibernia/Woods Farthing. (p. 21) 375.00
- 1723 Brown Unc. (60) Hibernia/Woods Farthing. 11 Harpstrings. (p. 21) 395.00
- 1724 EF (40) Hibernia/Woods Farthing. 10 Harpstrings. Period after date. (p. 21). 195.00
- 1724 Brown Unc. (60) Hibernia/Woods Half-Penny. Period after date. (p. 21) 595.00
- 1766 EF (45) Pitt Half-Penny. Struck as a commemorative medalet to William Pitt, with regards to his efforts to remand the Stamp Act. Auction records in this grade at the \$1,000 level. This example has a very strong strike and is well worth (p. 21). 895.00
- 1787 EF (40) Connecticut Cent. Horned bust variety. (p. 29). 195.00
- 1788 VF (20) Connecticut Cent. Mailed bust left. (p. 30) 95.00
- 1786 G (6) New Jersey Cent. Narrow shield. (p. 33) 26.00

- 1776 EF/AU (45+) Continental Dollar. "Currency". No "E. G. Fecit". The scarcest collectible variety in pewter. From an early B. Max Mehl auction sale. The Guidebook lists an evaluation of \$12,000 in EF. We have priced our attractive example to sell quickly. (p. 34). 5,950.00
- 1783 VF (35) Nova Constellatio Copper. Pointed rays, large U. S. Scarce variety. (p. 36) 175.00
- 1783 EF (40) Nova Constellatio Copper. Blunt rays. "Constellatio" variety. (p. 36) 165.00
- 1767 VG/F (10+) French Colonies Sou. Without counterstamp and scarce as such. (p. 40) 75.00
- 1767 AU (50) French Colonies Sou. Without counterstamp. Really an outstanding example with traces of faded mint red. (p. 40). 595.00
- 1767 VF (20) French Colonies Sou. Counterstamped "RF" for "Republique Francaise". (p. 40). 90.00
- 1767 VF (25) French Colonies Sou. Counterstamped "RF" for "Republique Francaise". (p. 40). 125.00
- 1781 VF (20) North American Token. One of the colonial issues which is seen less than its price would indicate. (p. 40). 65.00
- 1783 AG/G (4+) Chalmers Shilling. Struck by J. Chalmers, a goldsmith, in Annapolis, Maryland. (p. 43). 395.00

- 1783 EF (40) Chalmers Shilling. Short worm variety. Better than the Gibson example (Stacks, November, 1974) which brought \$2,600, but not quite of the quality of one recently advertised as Borderline Unc. for \$17,500. Only recently has the desirability of the Chalmer coinage been recognized, as they were the *first circulating silver coins issued in the American Colonies since the Pine Tree coinage*. An important rarity, numismatically and historically. 2,750.00
- 1789 EF (40) Mott Token. Thin planchet. Much rarer variety. (p. 44) 750.00
- 1794 F/VF (15+) Talbot, Allum and Lee Cent. With New York. (p. 45). 95.00

- 1795 Ch BU (60+) Talbot, Allum and Lee Cent. (p. 45) 495.00
- 1773 Ch R & B Unc. (60+) Virginia Half-Penny. A quality example. (p. 47) 375.00

- 1694 Ch Brown Unc. (60+) Carolina Elephant Token. Finest we have ever seen of this issue. Full original cartwheel. 1,395.00
- 1792 EF/AU (45+) Kentucky Token. Plain edge. Also known as the Triangle Token. (p. 48) 125.00
- 1792 AU (50+) Kentucky Token. Plain edge. (p. 48) 195.00
- 1792 Brown Unc. (60) Kentucky Token. Plain edge. (p. 48) 395.00
- 1792 Ch Unc. (60+) Kentucky Token. Edge lettered, "Payable in Lancaster, London or Bristol". (p. 48) 450.00

- 1792 Gem Unc. (65) Kentucky 1c. Engrailed edge. Much rarer variety. Really an exceptional coin in terms of rarity and condition. (p. 48) 1,595.00
- 1688 EF/AU (45+) American Plantations Token. Newman 5-D. (p. 49) 495.00

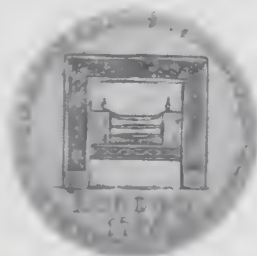

- 1688 Gem BU (65) American Plantations Token. (Restrike) Important as the first authorized coinage for the British Colonies in America. These were struck in tin, very conducive to corrosion, and many extant pieces were found underground. This coin suffers from *none* of the usual planchet sickness normally associated with this issue. Undoubtedly the choicest example we have ever seen. A truly remarkable coin. (p. 49) 1,750.00
- 1760 F (15) Hibernia Voce Populi Half-Penny. "P" before bust variety. Nelson 12. (p. 50) 125.00

1818 Gem BU (65+) Superb! Fully struck with perfect surfaces. Beautiful toning. This is another coin that is rare in Gem condition, as the market is literally flooded with AU or sliders being offered as Unc.'s or even BU's. This coin is simply so amazing that it really cannot be done justice in print. You have to see this coin to appreciate it. For those who want the ultimate.

| 1838 Gem BU (65+) No drapery. Superb! Beautifully toned. In all our years of collecting and dealing in rare coins, this is positively the first legitimate Mint State example of the No Drapery Quarter that we have seen or handled and has to be considered of the utmost importance. This is very undervalued because of the numerous sliders that are offered as "BU" or even "Uncirculated". This coin is of more than comparable rarity to its sister coin, the No Drapery Half. Recently, a Mint State example of the Half sold for \$10,000. And, judging that there are far fewer No Motto or No Drapery Quarters in legitimate Mint State offered today than the corresponding Halves, we feel that this is very conservatively priced at | 6,500.00 |

## THE 1827 RESTRIKE QUARTER

The 1827 Quarter is the contemporary of the other famous restrike issues, including the 1804 Dollar, struck during the late 1850's and early 1860's, under the auspices of several mint employees. The 1827 Restrike Quarter in silver is not a pattern issue and a limited number were coined solely to satisfy collector demand for the date (as the 1827 Original, curl base 2, had already been recognized as a rarity). The following excerpt from a letter dated January 22, 1859 from James Ross Snowden, Director of the Mint, to Secretary of the Treasury, Howell Cobb, sheds a bit of light on the subject:

Sir,

We are daily pressed upon, by collectors of coins from all parts of the country either by letter or in person, for specimens of pattern pieces of coins, and rare types. A few of these have been in every case issued—some of them got into the hands of dealers and are sold at excessive prices. I propose, with your approbation, to check this traffic, and at the same time gratify a taste which has lately increased in this country, and seems to be increasing

everyday, namely by striking some of each kind and affixing a price to them, so that the profits may enure to the benefit of the Mint Cabinet of Coins and Ores which is the property of the United States; an exact amount of which will be kept and rendered to the Department.

The presently offered specimen of the 1827 Restrike Quarter was probably an early impression from the dies, as it is struck from very lightly rusted dies and has exceptionally brilliant surfaces. Its pedigree can be traced to the R. L. Miles Collection, and is one of only 9 known specimens. The issue is of virtually the same rarity as the 1827 Original Quarter a specimen of which is on the market at a price approaching six figures. To own a coin of this magnitude, a truly romantic issue, would represent a gratifying experience for the connoisseur of American Numismatic rarities.

The price of this great rarity will be furnished upon request.

Truly a once-in-a-lifetime opportunity to acquire a coin of this importance. Auction records for this coin are virtually non-existent because of its extreme rarity, but we feel it is fairly priced at . . . . . | 9,500.00 |

| 1856 Gem BU (65+) Superb! Fantastic toning. Unlike the 1857, which is a Hoard coin, this year turns up very infrequently above EF/AU. This coin is so magnificent, it really defies description. 100% fully struck up, with a wire rim on the reverse. No serious field markings or abrasions make this quite exceptional for this type. A true dream coin | 825.00   |

## EARLY DOLLARS

1797 EF (45) Superior surfaces. Greenish-blue toning about  
the periphery . . . . . 895.00

1797 Ch AU (55+) 10 x 6 Stars. This coin is far better than  
most so-called Uncirculated Bust Dollars, and is one of  
the best Small Eagle Dollars that we have seen on the  
market in years. The coin has full luster and beautiful  
blue, green and gold toning. Only the slightest rub  
keeps it from the Gem category. An incredible value!!  
. . . . . 5,750.00

*We received over one thousand complimentary letters last  
year alone. We have thought about reprinting many of  
them, but decided not to, because we feel that you are  
more interested in what we can do for you, not what we  
have already done for someone else.*

## GOBRECHT DOLLARS

1836 Ch Proof (60+) "C. Gobrecht F." below base. J-58. The first Gobrecht Dollar, as executed by engraver, Christian Gobrecht from the ideas of Thomas Sully and Titian Peale. One of our nation's most beautiful designs and a true numismatic rarity with 18 pieces struck. The legend, "C. Gobrecht F.", is an abbreviation for "Christian Gobrecht Fecit", the term "Fecit" meaning "made it". An item suitable for the finest collection. . . . . 13,750.00  
1836 VF (30) "C. Gobrecht F." on base. Reverse with stars in field. Plain edge. Listed in Redbook and as J-60. The regularly seen Gobrecht Dollar and one of 1,000 originally minted. Some of this issue saw circulation, as with this specimen. Priced for the collector who can't afford to spend \$5,000 for a Gem. . . . . 1,450.00

1870-CC VG/F (10) First Carson City issue . . . . . 175.00

Many of the coins in this catalog are from one of two very old collections we purchased in the last 60 days. Many of these coins are beautifully toned, as they were kept in old Max Mehl envelopes. Most do not photograph well, because of toning; therefore, we have omitted the photographs of these coins. If you like toned coins, however, we assure you that the quality is breathtaking. This type of quality only comes when old time collections are sold. We urge you not to miss this opportunity to pick up some nice coins.

1895 Gem Proof (65) This date is the king of the Morgan Dollar series. This coin is truly magnificent. The toning, as with many of the coins in this listing, is simply beautiful. The entire coin is toned in blues, greens and gold. This piece is surely one of the best known and, therefore, a prime investment item. Priced fairly at . . . \$450.00

## THE PAQUET REVERSE TWENTY DOLLAR GOLD

1861-S Paquet EF/AU (45+) The reverse designed by Anthony Paquet. These new reverse dies, featuring tall, narrow letters, were sent to the Branch Mints which struck the denomination. A trial striking at Philadelphia of two examples on January 5, 1861, showed the new die to be unsuitable for regular issue coinage. James Pollock, Director of the Mint, sent messages to New Orleans and San Francisco, suspending further

use of the die. The message arrived at New but failed to reach San Francisco, due to rather primitive travel conditions and lack of a telegraph. In the interim, 19,250 were struck at San Francisco, using the Paquet reverse. When word reached the mint, most of these were melted and re-coined using a leftover regular reverse die. A few reached circulation. An immensely desirable and historical issue, and one of the finer examples to appear for public sale. . . . . 8,500.00

## DOUBLE-EAGLES, (CONT'D)

1922-S Ch BU (60+) . . . . . 795.00

1931-D Gem BU (65) Next to the 1927-D, which is valued at close to \$200,000.00, this is the rarest date of all Saint Gaudens Double-Eagles. Probably less than 25 pieces extant, as most of the mintage was melted in 1933. The superb condition of this example makes it one of the finer ones available anywhere. The satin surfaces and depth in strike must be seen to be fully appreciated. An excellent opportunity. . . . . 16,500.00

*Many of the coins in this catalog are from one of two very old collections we purchased in the last 60 days. Many of these coins are beautifully toned, as they were kept in old Max Mehl envelopes. Most do not photograph well, because of toning; therefore, we have omitted the photographs of these coins. If you like toned coins, however, we assure you that the quality is breathtaking. This type of quality only comes when old time collections are sold. We urge you not to miss this opportunity to pick up some nice coins.*

# Commemorative Halves

## Choice Brilliant Uncirculated (60+)

A Commemorative issue which has seen no circulation and has full luster. The coin will be completely as struck. The coin may have bagmarks which were acquired through normal handling through the years. Commemoratives in this grade are of better than average quality uncirculated specimens.

## Gem Brilliant Uncirculated (65)

This is an uncirculated coin which has a strong strike for the issue and a minimum number of bagmarks. These coins will have full brilliance, but may be naturally toned.

Commemoratives are seldom found any better than this. In short, coins which meet this grade are the finest quality available on the market.

**To be one of the largest sellers  
of rare U.S. coins  
it only stands to reason we're one of the  
largest buyers of rare U.S. coins.**

If you have what we want, the odds are we will pay more than anyone in the country for that material. We have literally thousands of active buyers whose needs cover virtually the entire numismatic spectrum. Unlike some firms, there are some coins we don't want to buy. But if you do have what we want, we will pay absolute top dollar to obtain them.

We have large amounts of cash available for almost any size collection. One of our buyers can be in your city in 24 hours if your collection warrants.

## The April Catalog—Beautiful

There is only one word that can describe our April, 1976, catalog beautiful. Including the front cover, there are six pages of full color for your enjoyment. We have continued our practice of fully describing each and every coin in detail, but in the cases of those coins shown in color, the pictures are indeed worth a thousand words. In addition to showing the coins as they *really* are, the color photographs allow you to consider our grading in all aspects. Now the detail, luster, and color of the coins pictured can be observed easily. We have certainly had great pleasure in assembling this beautiful catalog for you, and we hope that you will experience the same feelings as you read the catalog at your leisure.

## The "New" Guarantee

Shown below is the approved copy of the new grading

guarantee. During a recent show in Los Angeles, a meeting of *Coin World* Editor Margo Russell, Abe Kosoff, Steve Ivy, Jim Halperin, and Joel Rettew resulted in the formulation of this new guarantee. We are proud to have played an important part in the adoption of this grading guarantee by other dealers, and in the writing of the official standard guarantee. We sincerely hope that other dealers will continue to adopt the new grading guarantee and that it will eventually become a standard policy.

## The Articles

We continue to receive many letters about the articles that we publish with each catalog stating the writer's interest in them. We will continue to publish more articles by Walter Breen, Jim Harris, and other numismatic authors as they become available to us. However, the inclusion of the color pictures in this catalog has changed the location of these articles from the front of the catalog to the back.

*Pictured on the cover are the following coins: Kentucky Cent in Gem Unc. (65), 1906 Indian Cent in Gem Proof (65), 1887 Indian Cent (Reverse) in Gem Proof (65), 1858 Flying Eagle Cent in Gem BU (65), and an 1852 Large Cent in Gem BU (65).*

# Steve Ivy Rare Coin Co.

The originator of the guaranteed grading system

Dear Customer and Friend:

## *The Market*

The coin market has been extremely active over the past six weeks. Prices have been edging upward, and most of the available supply seems to be disappearing. As usual, the primary emphasis has been on high grade material. The primary source of most of the new coins that have come on the market in the past month has been from one of two very large collections that recently traded hands, both valued in excess of \$1 million. We are happy to have had the privilege of examining both of these collections before they were offered for public sale. We were able to negotiate the purchase of several hundred thousand dollars worth of high grade coins from these collections, most of which we are offering for the first time in this catalog. If you see anything you want, please call our toll-free number, 1-800-527-4503, as most of these items will sell quickly.

## *A New Grading Guarantee*

Since our company first offered the grading guarantee almost a year ago, several other companies followed suit, each one offering a guarantee that was somewhat different from the other. It recently became evident to *Coin World* that in the future many other companies would probably offer similar guarantees. The need became apparent to have some type of standard wording to prevent

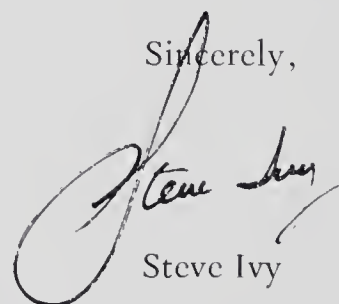

any future confusion. On the evening of February 20th, Margo Russell of *Coin World*, Abe Kosoff, Joel Rettew, Jim Halperin and myself had a meeting in Los Angeles, California, to discuss this matter in detail. After several hours of careful consideration, a new standard guarantee, which is shown in this catalog, was formulated. We sincerely hope that this new guarantee will clarify grading matters on the part of the collector.

## *A New Company*

We are proud to announce the formation of a new sister company, Steve Ivy Numismatic Auctions. One of the main objectives of Steve Ivy Numismatic Auctions will be to serve our primary customers, *the consignors*, with personalized attention, the finest catalog, and the highest prices realized. The other objective will be to serve *the bidders*. It will be our intention to accurately and fairly represent the lots both in their description and in the associated pictures.

Watch for our ads concerning our first auction, which will be held two weeks prior to this year's A.N.A. Convention.

Sincerely,

A handwritten signature in dark ink, appearing to read "Steve Ivy", with a large, stylized flourish on the left side.

Steve Ivy

## COLONIALS

### The Rare Sommer Islands Sixpence.

1616 EF (40) Sommer Islands Sixpence. Large portholes variety. The first coinage struck for the English Colonies in the New World in about 1616. Four denominations were issued: the Shilling, Sixpence, Threepence, and Twopence, all denoted by Roman numerals. When these circulated, they were known as "Hogge Money" because a hog serves as the prominent obverse device. A Galleon with the flags of St. George flying from the masts is featured on the reverse. The islands were originally named for Sir George Sommers who was shipwrecked there in 1609 while enroute to the Virginia Plantation. Earlier, one Juan Bermudez (the islands were later renamed Bermuda in honor of this explorer) stopped there leaving a few hogs, whose population multiplied rapidly. When the Sommer Party ended up there, the hogs on the island served as an abundant food supply for them. This coin, we feel, is far and away the finest example ever offered for public sale. This in itself is quite noteworthy considering that Stacks, in describing a Sommer Islands Sixpence for the Massachusetts Historical Society Sale in 1973, felt that piece was probably the finest extant example and it brought \$28,000. The presently offered coin has a planchet and detail that can only be called "incredible" because this issue normally comes with severe corrosion due to the atmospheric conditions on the islands. The exceptional quality, with virtually no corrosion, must be seen to be fully appreciated. This example will never be equalled and will prove to be the highlight of any collection. (p. 13) (see color photo) . . . . . P.O.R.

1652 F/VF (15+) Oak Tree Shilling. Spiney Tree reverse. Struck from 1660 to 1667. Surfaces somewhat rough but still sharp. (p. 16) . . . . . 595.00  
1652 AU (50) Massachusetts Pine Tree Threepence. Wide, thin planchet. By far the finest example we have ever handled. (p. 16) . . . . . 1,750.00  
1652 EF/AU (45+) Massachusetts Pine Tree Shilling. Noe 16. Small planchet. Exceptional state of preservation for this popular issue. Based on recent auction records, this piece is priced fairly at (p. 16) . . . . . 1,750.00

### Possibly the Finest Known Maryland Sixpence.

1658 Ch AU (55) Maryland Sixpence. Issued by Cecil Calvert, the 2nd Lord Baltimore. The obverse of the coin features his portrait, while the reverse contains the family Coat of Arms; and the legend, "Crescite et Multiplicamini", which translates into "Increase and be Multiplied". Possibly the finest known of this rare and desirable issue. Our asking price will prove to be an incredible value in the years to come. (p. 17) . 9,500.00

1722 F/VF (15+) Hibernia/Woods Half-Penny. First type. Harp at left. (p. 21) . . . . . 75.00  
1723/2 Ch Unc. (60+) Hibernia/Woods Half-Penny. Large 3, 11 Harpstrings. These coins were unpopular in Ireland, and most were sent to the American colonies. High grade specimens are seldom encountered. (p. 21) (see color photo) . . . . . 675.00  
1723 AU (50) Hibernia/Woods Half-Penny. (p. 21) . . . . . 150.00  
1723 VF (30) Hibernia/Woods Farthing. (p. 21) . 60.00  
1723 AU (50) Hibernia/Woods Farthing. These high grade colonial issues still have tremendous potential for future price appreciation. These historical pieces would make a fine addition to any collection or investment portfolio. (p. 21) Reasonable. . . . . 175.00  
1723 Brown Unc. (60) Hibernia/Woods Farthing. 11 Harpstrings. (p. 21) . . . . . 395.00  
1724 Brown Unc. (60) Hibernia/Woods Half-Penny. Period after date. (p. 21) . . . . . 595.00

## COLONIALS. (CONT'D)

- 1766 VF (25) Pitt Half-Penny. Struck as a Commemorative medalet to William Pitt, with regard to his efforts to remand the Stamp Act. (p. 21) Only . . . . . 425.00

### Undoubtedly the Worst Known Non Vi Virtue Cent.

- 1786 Fair (2) Non Vi Virtute Vici Cent (New York). Scarce and desirable issue, although not exceptional in terms of condition. Fully identifiable as to type. This coin is virtually never seen below VF, with auction records for that grade in the \$7,000 range. This coin is priced for the collector who is interested in a bargain priced example. Interesting coin. (p. 24) . . . . . 1,495.00

- 1787 EF (40) Connecticut Cent. Horned bust variety. (p. 29). . . . . 195.00  
1786 G (6) New Jersey Cent. Narrow shield. (p. 33). . . . . 26.00  
1776 EF/AU (45+) Continental Dollar. "Currency". No "E. G. Fecit". The scarcest collectible variety in pewter. From an early B. Max Mehl auction sale. The Guidebook lists an evaluation of \$12,000 in EF. We have priced our attractive example to sell quickly. (p. 34). . . . . 5,950.00  
1783 VF (35) Nova Constellatio Copper. Pointed rays, large U.S. Scarce variety. (p. 36). . . . . 175.00  
1767 F/VF (15+) French Colonies Sou. Counterstamped "RF" for "Republique Francaise". (p. 40). . . . . 65.00  
1767 VF (20) French Colonies Sou. Counterstamped "RF" for "Republique Francaise". (p. 40). . . . . 90.00  
1767 VF (25) French Colonies Sou. Counterstamped "RF" for "Republique Francaise". (p. 40). . . . . 125.00  
1781 VF (20) North American Token. One of the colonial issues which is seen less than its price would indicate. (p. 40). . . . . 65.00  
1783 AG (3) Chalmers Shilling. No defects, just wear—evidence that this issue circulated quite heavily. (p. 43). . . . . 395.00  
1783 EF (40) Chalmers Shilling. Short worm variety. Better than the Gibson example (Stacks, November, 1974) which brought \$2,600, but not quite of the quality of one recently advertised as Borderline Unc. for \$17,500. Only recently has the desirability of the Chalmer coinage been recognized, as they were the first circulating silver coins issued in the American Colonies since the Pine Tree coinage. An important rarity, numismatically and historically. (p. 43) . . . . . 2,250.00  
1789 EF (40) Mott Token. Thin planchet. Much rarer variety. (p. 44) . . . . . 500.00  
1795 Ch BU (60+) Talbot, Allum and Lee Cent. (p. 45). . . . . 395.00  
1694 Ch Brown Unc. (60+) Carolina Elephant Token. Finest we have ever seen of this issue. Full original cartwheel. (p. 46) (see color photo) . . . . . 1,150.00  
1773 Ch AU (55+) Virginia Half-Penny. Even brown surfaces. Most would sell as Mint State. (p. 47). . . . . 195.00  
1773 Ch R & B Unc. (60+) Virginia Half-Penny. A quality example. (p. 47) (see color photo) . . . . . 300.00

- 1792 EF/AU (45+) Kentucky Token. Plain edge. Also known as the Triangle Token. (p. 48) . . . . . 95.00  
1792 AU (50+) Kentucky Token. Plain edge. (p. 48). . . . . 150.00  
1792 Brown Unc. (60) Kentucky Token. Plain edge. (p. 48). . . . . 295.00  
1792 Ch Unc. (60+) Kentucky Token. Edge lettered, "Payable in Lancaster, London or Bristol". (p. 48). . . . . 350.00  
1792 Gem Unc. (65) Kentucky 1c. Engrailed edge. Much rarer variety. Really an exceptional coin in terms of rarity and condition. (p. 48) (see color photo) . . . . . 1,200.00  
1787 VF (20) Auctori Pleblis Token. Nice grade for this issue. (p. 48). . . . . 225.00  
1688 EF/AU (45+) American Plantations Token. Newman 5-D. (p. 49) . . . . . 395.00  
1688 Gem BU (65) American Plantations Token. (Restrike) Important as the first authorized coinage for the British Colonies in America. These were struck in tin, very conducive to corrosion, and many extant pieces were found underground. This coin suffers from none of the usual planchet sickness normally associated with this issue. Undoubtedly the choicest example we have ever seen. A truly remarkable coin. (p. 49) . . . . . 1,450.00  
1760 F (15) Hibernia Voce Populi Half-Penny. "P" before bust variety. Nelson 12. (p. 50) . . . . . 95.00  
1760 VF (20) Hibernia Voce Populi Half-Penny. "P" before bust variety. Nelson 12. (p. 50) . . . . . 110.00  
1760 VF (25) Hibernia Voce Populi Half-Penny. "P" before bust variety. (p. 50). . . . . 135.00  
1760 EF (40) Hibernia Voce Populi Half-Penny. Old head variety. Nelson 4. (p. 50) . . . . . 95.00  
1760 Ch AU (55) Hibernia Voce Populi Half-Penny. Nice brown planchet. (p. 50) . . . . . 275.00  
1760 Unc. (60) Hibernia Voce Populi Half-Penny. Beautiful glossy surfaces. (p. 50) . . . . . 395.00  
1778 Brown Unc. (60) Rhode Island Ship Token. Copper. Wreath below ship. Possibly the finest known of this rare medalet. (p. 50) (see color photo) . . . . . 1,500.00

## Finest Known 1850-O Dime.

1850-O Gem BU (65) Small "O". Incredibly rare. This is the only Mint State coin of this date we have ever seen. Taxay lists as R-6, which we feel is low. Realistically R-7. Specimens in any grade are underpriced because of ignorance and guidebook valuations. We feel, on today's market, this coin cannot be overemphasized for importance. A steal at any price. (see color photo). . . 3,900.00

### Extremely Rare 1823/22 Quarter.

1823/2 Fine (12) High R-7 coin with less than 10 pieces known. This specimen is very well struck with no defects or damage. Very infrequently offered for sale, 2 Proof specimens bringing \$40,000 and \$45,000 within the last two years. Much rarer than many of the heralded super rarities that abound now. Guidebook valuation unbelievably low, and no real price record exists for this coin. A tremendous opportunity to acquire a real piece of numismatic history . . . . . 6,900.00

### 1827 Restrike Quarter.

1827 Restrike Quarter Gem Proof (65) The 1827 Quarter is the contemporary of the other famous restrike issues, including the 1804 Dollar, struck during the late 1850's and early 1860's, under the auspices of several mint employees. The 1827 Restrike Quarter in silver is not a pattern issue and a limited number were coined solely to satisfy collector demand for the date (as the 1827 Original, curl base 2, had already been recognized as a rarity). The following excerpt from a letter dated January 22, 1859 from James Ross Snowden, Director of the Mint, to Secretary of the Treasury, Howell Cobb, sheds a bit of light on the subject:

Sir,

We are daily pressed upon, by collectors of coins from all parts of the country either by letter or in person, for specimens of pattern pieces of coins, and rare types. A few of these have been in every case issued—some of them got into the hands of dealers and are sold at excessive prices. I propose, with your approbation, to check this traffic, and at the same time gratify a taste which has lately increased in this country, and seems to be increasing everyday, namely by striking some of each kind and affixing a price to them, so that the profits may enure to the benefit of the Mint Cabinet of Coins and Ores which is the property of the United States; an exact amount of which will be kept and rendered to the Department.

The presently offered specimen of the 1827 Restrike Quarter was probably an early impression from the dies, as it is struck from very lightly rusted dies and has exceptionally brilliant surfaces. Its pedigree can be traced to the R. L. Miles Collection, and is one of only 9 known specimens. The issue is of virtually the same rarity as the 1827 Original Quarter, a specimen of which is on the market at a price approaching six figures. To own a coin of this magnitude, a truly romantic issue, would represent a gratifying experience for the connoisseur of American Numismatic rarities. (see color photo). . . . . P.O.R.

### Superb No Drapery Quarter.

1838 Gem BU (65+) No drapery. Superb! Beautifully toned. In all our years of collecting and dealing in rare coins, this is positively the first legitimate Mint State example of the No Drapery Quarter that we have seen or handled and has to be considered of the utmost importance. This is very undervalued because of the numerous sliders that are offered as "BU" or even "Uncirculated". This coin is of more than comparable rarity to its sister coin, the No Drapery Half. Recently, a Mint State example of the Half sold for \$10,000. And, judging that there are far fewer No Motto or No Drapery Quarters in legitimate Mint State offered today than the corresponding Halves, we feel that this is very conservatively priced. ## BUST DOLLARS

1797 Ch AU (55+) 10 x 6 stars. This coin is far better than most so-called Uncirculated Bust Dollars, and is one of the best Small Eagle Dollars that we have seen on the market in years. The coin has full luster and beautiful blue, green and gold toning. Only the slightest rub keeps it from the Gem category. An incredible value. (see color photo). . . . . 5,750.00

### Choice BU 10x6 Stars Small Eagle Dollar.

1797 Ch BU (60+) Small Eagle. 10 stars by 6 stars. A few very light adjustment marks on obverse. Fully brilliant and fully struck. This is the most outstanding Small Eagle Dollar to appear on the market in the last 12 months. Actually, this coin is superior to examples that have sold at higher prices and is much rarer as a date than 1795. Well worth (see color photo) .19,500.00

| 1861-S Paquet EF/AU (45+) The reverse designed by Anthony Paquet. These new reverse dies, featuring tall, narrow letters, were sent to the Branch Mints which struck the denomination. A trial striking at Philadelphia of two examples on January 5, 1861, showed the new die to be unsuitable for regular issue coinage. James Pollack, Director of the Mint, sent messages to New Orleans and San Francisco, suspending further use of the die. The message arrived at New Orleans but failed to reach San Francisco, due to rather primitive travel conditions and lack of a telegraph. In the interim, 19,250 were struck at San Francisco, using the Paquet reverse. When word reached the Mint, most of these were melted and recoinced using a leftover regular reverse die. A few reached circulation. An immensely desirable and historical issue, and one of the finer examples to appear for public sale. . . . . | 8,500.00 |

| 1855 VG (8) Wass, Molitor & Co. \$50 Gold. We have the pleasure of offering another example, nicer grade and with fewer marks. These coins circulated quite heavily in the boom town of San Francisco. It might be interesting to learn how the term "slug" came to be used to describe them. We have heard stories of many people who were hit over the head with a cloth sack containing the heavy metal objects which were \$50 gold coins, and ended up robbed, shanghaied, or both, as a result. This example is indeed quite representative as a reminder of a boisterous period of American history. (see color photo). . . . . | 7,500.00 |

# Commemorative Halves

## Choice Brilliant Uncirculated (60+)

A Commemorative issue which has seen no circulation and has full luster. The coin will be completely as struck. The coin may have bagmarks which were acquired through normal handling through the years. Commemoratives in this grade are of better than average quality uncirculated specimens.

## Gem Brilliant Uncirculated (65)

This is an uncirculated coin which has a strong strike for the issue and a minimum number of bagmarks. These coins will have full brilliance, but may be naturally toned. Commemoratives are seldom found any better than this. In short, coins which meet this grade are the finest quality available on the market.

# How Rare Is It?

by Walter Breen

Until about 1956, everyone believed the claim that only ten 1876-CC Twenty-Cent pieces were known to exist. Four more, all Uncirculated, were discovered in Maryland and sold privately. Of the fourteen now known, only one shows much evidence of wear. Genuine examples all show doubling on the word, "LIBERTY". There are several fakes around, one of them apparently a cast, at least one other manufactured by inserting "C's" (from an 1875-CC, probably) onto an 1876 Philadelphia.

Among Quarter Dollars, the 1796 is probably the most overrated of all. Col. Green had more than a dozen Proof-like Uncirculated examples. Date collectors got them after Burdette G. Johnson dispersed much of the estate in the early 1940's. The 1804 is far more rare in full Mint State; I know only four which are definitely Uncirculated rather than EF or AU and overgraded: 1) Charles A. Cass, "Empire" sale, lot 999; 2) Higgy 390 (1943); 3) Col. Green, Jerome Kern, Eugene Gardner, at \$6,500 in 1965, and 4) a new one discovered in Europe. Three others graded at one time or another as Uncirculated are actually AU; 5) Newcomer, Green, Clarke 1558; 6) Brand estate, Wayte Raymond, New Netherlands 33rd sale; 70 R. L. Miles 878, Stack sale Oct. 1970, \$1,000. Later dates through 1838 Bust are available in Uncirculated for a price, with a few obvious exceptions.

First of these is the 1822 with 25 over 50. I have heard of about ten of these in all grades, the Mougey-Clapp-Eliasberg piece, brilliant Proof. Then comes the 1823, of which much nonsense has been written, about a dozen are known of this date, Good to XF, plus a solitary Proof, ex., B. G. Johnson, Elmer Sears, A. J. Allen, George H. Hall, Clint Hester, Jerome Kern, F. S. Guggenheimer.

The most famous one of all, however, is the 1827, and once again much nonsense has been written about this date. It is true that Joseph J. Mickley obtained four Proofs from the Philadelphia Mint in exchange for a dollar (probably Spanish or Mexican, as those were legal tender); but it is not true that there are only those four original specimens in existence. The latest research indicates that there are either ten or eleven originals in existence, one VF (Eliasberg), one other apparently Uncirculated and stained (ex., Farouk), and either 8 or 9 Proofs, of which at least three are impaired, only one shows centers of all stars.

Paradoxically enough, there are more originals than silver restrikes known of 1827. The earliest restrikes are Uncirculated with very little die rust, and at least one (Eliasberg's) is overstruck on an 1806 Quarter. Later ones are Proofs, struck from severely rusted dies. In all, I estimate eight silver restrikes and 5 or 6 copper.

The next controversial rarity is the 1842 small date. All examples are Proofs, to date five being traced: 1) ANS, from a Proof set, ex., J. P. Morgan bequest, R. C. W. Brock, from the Mint; 2) Oscar Schilke had one in a Proof Set; 3) Norweb; 4) "Century" 872, at \$8,250 (1965), said to have cost \$11,000; possibly ex. Jerome Kern, and reappearing in the R. L. Miles sale, and 5) reportedly in the Smithsonian.

The 1849-O is believed to have been included in the first 1850 delivery of Quarters at New Orleans, 16,000 in all. Less than four are known in Mint State. There is no auction record recent enough to be meaningful. In ordinary condition the piece is probably Rarity-5, possibly R-6, and definitely rarer than the 1853 without arrows, of which a tiny group of Uncirculateds have been making the rounds for years, thanks to H. P. Newlin's foresight in saving them. The first four "CC" coins are rarer than either of the preceding, and all but unobtainable in Mint State. Miles had the lone 1870-CC in that grade, WGC the lone 1873-CC without arrows, which date is borderline R-7 in all grades. Next to these, the 1878-S is common even in Proof-like Uncirculated, evidently several specimens being saved as souvenirs. However, many of the earlier "S" Mints, 1855-69, are unknown in full Unc., though there is at least one Proof 1855-S (ultimately from the Branch Mint Superintendent, Robert Aiken Birdsall, to W. W. Long, then Edward Maris, and more recently in one of the Stack sales). The same remark holds for the 1891-O, though the unique Proof—in one of Lester Merkin's sales—cannot be traced earlier than the Atwater Collection. At least two Matte Proofs of 1916 Liberty, St. Gauden's are reported.

Only one other Quarter Dollar of later date deserves mention here. The 1918/7-S is a high Rarity-7 item in full Mint State, not over four being reported to date. Incidentally, there is a variety of the regular 1918-S with a die break through the upper part of the date which has sometimes been mistaken for the overdate, the break in the top loop of the 8 being fancied to represent the crossbar of a 7.

# *Our Heritage in Coinage Design*

*Second of a three part series*  
by Jim Harris

Most of the more historically interesting of our coins can be found among the Commemorative Coins issued early in this century, the coins issued by colonies before the creation of the U. S. Mint, and the coins or patterns produced during our earliest efforts at establishing a U.S. coinage.

Some of the Commemorative Coins were beautifully designed by talented artists and nearly all relate to dramatic events or colorful people in our history. The Continental Dollar and Fugio Cent are completely different in conception from any of our other coins and remind us of Benjamin Franklin who urged the use of the mottos on them.

Franklin argued that placing inspirational or educational mottos on coins would bring good lessons to the youth of the country. They would read some wise or virtuous saying every time they handled a coin. Franklin's active mind always found a secondary use for everything. While the Revolution was still being fought, he proposed "propaganda" coins to help inflame the people. They would show British troops committing atrocities like the burning of towns.

The mint, however, was never charged with and never assumed any responsibility for picturing any of our history on any regular issue coins. It attempted only to produce coins meeting the requirements imposed by Congress and to keep the people of the country happy with the quantity and the quality of the coins it provided for use in trade. When Congress finally agreed on the wording of the first Coinage Act after several false starts, it failed to include a requirement that their value be shown on gold or silver coins. Consequently, most of those made during the first few years were not marked with their value. The public was expected to know their value from their size though the coins were of a kind which was new to everyone.

Just twelve days after the coinage law was voted through, Washington took the first step toward establishing the mint by persuading David Rittenhouse to become the organizer and first Director. Rittenhouse was a staunch patriot and friend of Washington and was the foremost scientist and mathematician in the New World. He was better educated and more noted in scientific circles than even Benjamin Franklin and had built the first astronomical observatory in America. As a young surveyor, he had laid out the boundary lines between New York, New Jersey and Pennsylvania and had made the first survey of what later became called the Mason-Dixon Line.

Though he accepted the appointment reluctantly because of failing health, Rittenhouse went to work enthusiastically. With Washington's approval, he bought the site of an old distillery near the center of Philadelphia and hired workmen who quickly erected a building and built most of the machinery and equipment which was needed. This was the first building constructed with U.S. Government funds. Rittenhouse continued as Director of the Mint until his health gave out on him completely three years later. Stories were that he often paid some mint expenses out of his pocket if he felt the expenses might be criticized by opponents of the mint.

In these days things were done largely in accordance with the wishes of Washington and Thomas Jefferson. Both men believed strongly that we should have a mint making U.S. coins and that no coins should be made by anyone else. Many other people believed the mint was an unnecessary expense. They believed that we should continue using the foreign coins which were in circulation or that we should contract to have coins made by private mints because that was then cheaper than operating a full time mint. Congress actually passed a bill to close the mint in 1803; but the Senate refused to concur, probably in deference to the wishes of Washington and Jefferson.

The mint building was located between the home and the office Washington used while the Seat of Government was in Philadelphia. He walked past the building every day on his way to and from his office. Almost daily he stopped for a word with the workmen and retained a lively interest in the operations. He also became the mint's first customer even before all the machinery had been installed.

The mint was not then authorized to buy gold or silver bullion to make into coins. It could only accept deposits of these metals and make them into coins of whatever denominations the depositors requested. Probably to publicize the mint's nearing readiness and to help get it started, Washington made the first deposit of silver and had it made into fifteen hundred Half-Dimes.

These Half-Dimes made in 1792 have on their obverse a portrait of a woman said to be Martha Washington. Though they are not considered a regular issue, they were the first silver coins made in our mint and were handled by Washington. He is said to have given all of them to friends as souvenirs. Since they were evidently made for use as a promotion of the new mint and were used as souvenirs rather than as spending money, we might even call them our first Commemorative Coins.

## The June Catalog—Beautiful Again

Your reaction to our April full color catalog was most appreciated. Your enthusiasm about the color pictures has convinced us that you believe as we do: present the coins for sale in the most accurate and pleasing manner possible.

The June catalog again has six full color pages for your pleasure and enjoyment. On these color pages we have attempted to show you representative examples of some of our attractively toned coins as well as some of our brilliant specimens. By inspecting the color pictures of the coin and the associated grades and descriptions, you receive the most accurate representation possible of the coin offered for sale. In addition, by observing these examples from our inventory, you know that our grading is conservative and accurate.

### The Select Collector Program

Dr. Alan Coleman has been hard at work since our

last catalog. Dr. Coleman and our staff have been developing our Select Collector Program. This new method of buying choice rare coins includes all aspects of collecting—investing from how and what to collect to estate tax planning. Look for information about the plan in the back of this catalog.

### Want List Service

Unfortunately, many coins that are listed in this catalog may be sold by the time it reaches you. Production and mailing time are two important reasons. Another reason is our want list service. Many of our customers have sent us their want lists and have purchased coins for their collections through this service—at lower prices. We see tens of thousands of coins each month, one of which may be the one you need. Send us your want list and we'll help you complete your collection at a very favorable price.

*Pictured on the cover are the following coins: 1855 \$50 (Reverse) in VG (8), 1902-S \$5 (Reverse) in Gem BU (65+), 1887 \$1 (Reverse) in Gem BU (65), 1907 \$20 High Relief in Ch AU (55), 1805 \$5 in Gem BU (65), and an 1904 \$2-½ in Gem BU (70).*

The originator of the guaranteed grading system

Dear Customer & Friend:

## *The Market*

In the last two months, our retail business has reached record levels. As always, the availability of choice coins is still very limited, and the demand is certainly on the increase, even taking into consideration the recent price increases in many series. It seems that prices will have to increase even further to bring out enough material to satisfy the demands currently being exerted on top quality merchandise. The next few months leading up to the ANA in New York should prove to be very interesting.

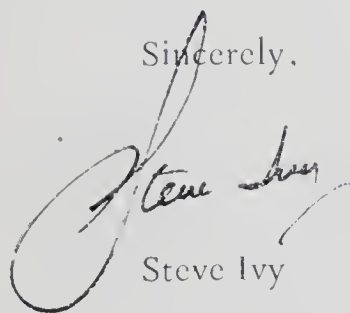

## *This Catalog*

This particular catalog has one of the most extensive selections of rare U. S. material we have ever had the pleasure of offering. We have made particular effort to buy Gem and Choice coins for this listing. The response to our last color catalog was absolutely tremendous, so we might suggest that you call or write us as soon as possible if you see something you want.

## *The Future*

Plans are currently underway to conduct our first two day numismatic investment seminar on September 24th and 25th. This seminar will be held on the Southern Methodist University campus under the directorship of Dr. Alan Coleman, Dean of the Southern Methodist University School of Business. In addition to Dr. Coleman, there will be several other speakers, including a representative of our company, lecturing on various topics of numismatics and how numismatics interrelate to the financial world. The fee for this seminar is tentatively set at \$225.00. If you would be interested in receiving more information on this and future seminars, please contact Mr. Harry Walker for further details.

Sincerely,

A handwritten signature in cursive script, appearing to read "Steve Ivy", written in dark ink.

## COLONIALS

### The Rare Sommer Islands Sixpence.

1616 EF (40) Sommer Islands Sixpence. Large portholes variety. The first coinage struck for the English Colonies in the New World in about 1616. Four denominations were issued: the Shilling, Sixpence, Threepence, and Twopence, all denoted by Roman numerals. When these circulated, they were known as "Hogge Money" because a hog serves as the prominent obverse device. A Galleon with the flags of St. George flying from the masts is featured on the reverse. The islands were originally named for Sir George Somers who was shipwrecked there in 1609 while enroute to the Virginia Plantation. Earlier, one Juan Bermudez (the islands were later renamed Bermuda in honor of this explorer) stopped there leaving a few hogs, whose population multiplied rapidly. When the Somers Party ended up there, the hogs on the island served as an abundant food supply for them. This coin, we feel, is far and away the finest example ever offered for public sale. This in itself is quite noteworthy considering that Stacks, in describing a Sommer Islands Sixpence for the Massachusetts Historical Society Sale in 1973, felt that piece was probably the finest extant example and it brought \$28,000. The presently offered coin has a planchet and detail that can only be called "incredible" because this issue normally comes with severe corrosion due to the atmospheric conditions on the islands. The exceptional quality, with virtually no corrosion, must be seen to be fully appreciated. This example will never be equalled and will prove to be the highlight of any collection. (p. 13)

### Possibly the Finest Known Maryland Sixpence.

1658 Ch AU (55) Maryland Sixpence. Issued by Cecil Calvert, the 2nd Lord Baltimore. The obverse of the coin features his portrait, while the reverse contains the family Coat of Arms; and the legend, "Crescite et Multiplicamini", which translates into "Increase and be Multiplied". Possibly the finest known of this rare and desirable issue. Our asking price will prove to be an incredible value in the years to come. (p. 17) (see color photo). . . . . 8,500.00

1723/2 Ch Unc. (60+) Hibernia/Woods Half-Penny. Large 3, 11 Harpstrings. These coins were unpopular in Ireland, and most were sent to the American colonies. High grade specimens are seldom encountered. (p. 21)

| 1688 Gem BU (65) <u>American Plantations Token</u> . (Restrike) Important as the first authorized coinage for the British Colonies in America. These were struck in tin, very conducive to corrosion, and many extant pieces were found underground. This coin suffers from none of the usual planchet sickness normally associated with this issue. ## Superb No Drapery Quarter.

1838 Gem BU (65+) No drapery. Superb! Beautifully toned. This coin has to be considered of the utmost importance. This is very undervalued because of the numerous sliders that are offered as "BU" or even "Uncirculated". This coin is of more than comparable rarity to its sister coin, the No Drapery Half. Recently, a Mint State example of the Half sold for 10,000. And, judging that there are far fewer No Motto or No Drapery Quarters in legitimate Mint State offered today than the corresponding Halves, we feel that this is very conservatively priced. (see color photo).

## Very Rare 1849 Proof Quarter.

1849 Gem Proof (65) Light green and blue toning. Easily a high R-7 coin (12 or less specimens known) and so infrequently offered little is known about it. Suffice to say that uncirculated 1849 Quarters are rare, making proofs in the rarest of the rare category. (see color photo). . . . . 5,500.00

## Gem Proof 1854 Arrows Quarter.

1854 Gem Proof (65) Arrows at date. Breen states that this is an R-7 coin, and we feel this is the finest known of the few we have seen. Truly a once-in-a-lifetime opportunity to acquire a coin of this importance. Auction records for this coin are virtually non-existent because of its extreme rarity, but we feel it is fairly priced (see color photo) . . . . . 8,500.00

## EAGLES, (CONT'D)

1932 Ch BU (60+) . . . . . 270.00

### DOUBLE EAGLES

1856-S AU (50) Perfect surfaces. Never seen this high grade. Scarce . . . . . 595.00  
1861-S Paquet EF/AU (45+) The reverse designed by Anthony Paquet. These new reverse dies, featuring tall, narrow letters, were sent to the Branch Mints which struck the denomination. A trial striking at Philadelphia of two examples on January 5, 1861, showed the new die to be unsuitable for regular issue coinage, James Pollack, Director of the Mint, sent messages to New Orleans and San Francisco, suspending further use of the die. The message arrived at New Orleans but failed to reach San Francisco, due to rather primitive travel conditions and lack of a telegraph. In the interim, 19,250 were struck at San Francisco, using the Paquet reverse. When word reached the Mint, most of these were melted and recoinced using a leftover regular reverse die. A few reached circulation. An immensely desirable and historical issue and one of the finer examples to appear for public sale. . . . . 7,500.00  
1865-S AU (50) Unknown in full unc. Scarce in any grade above VF. . . . . 950.00  
1873 Ch AU (55) Closed "3". Very rare in higher grades. (see color photo). . . . . 950.00  
1891-CC EF/AU (45+) We have seen inferior pieces bring over \$3,500. This piece is well worth. . . . . 2,450.00  
1907 Ch AU (55) High relief. Just the slightest touch of rub on the knee. We've seen worse called "Gem BU". (see color photo). . . . . 2,950.00

### Gem High Relief Twenty.

1907 Gem BU (65) High Relief. Wire rim. An absolutely superb coin in every respect. (see color photo) Well worth . . . . . 5,750.00

1909-S Gem BU (65) Underrated date . . . . . 475.00

## CALIFORNIA GOLD

1869 Gem BU (65) Octagonal 25c. Liberty Head. 95.00  
1853 EF (40) Round 50c. Liberty Head . . . . . 50.00  
1869 VF (25) Round 50c. Liberty Head . . . . . 45.00  
1881 Ch BU (60+) Round 50c. Indian Head . . . . . 75.00  
1854 EF (40) Octagonal \$1. Liberty Head . . . . . 150.00  
1857-58 Ch BU (60+) 3 piece token lot. Not the modern replicas, there are one 25c and two 50c. Probably contemporary California Eureka token. State seal on obverse . . . . . 15.00  
1894 Ch BU (60+) California Eureka token. Same as above. The pair would fit nicely into any California gold set. . . . . 15.00

### TERRITORIAL GOLD

\$1 August Bechtler AU (50) 27 grains, 21 carat. This type issued from 1842 to 1852 . . . . . 725.00  
1861 VF (25) Clark, Gruber \$5 Gold Private gold coinage from Colorado . . . . . 450.00  
1855 VG (8) Wass, Molitor & Co. \$50 Gold. We have the pleasure of offering a nice example, nice grade with fewer than normal bagmarks. These coins circulated quite heavily in the boom town of San Francisco. It might be interesting to learn how the term "slug" came to be used to describe them. We have heard stories of many people who were hit over the head with a cloth sack containing the heavy metal objects which were \$50 gold coins, and ended up robbed, shanghaied, or both, as a result. This example is indeed quite representative as a reminder of a boisterous period of American history. (see color photo) . . . . . 7,500.00

### PATTERNS

1792 Ch Unc. (60+) The Dickeson Copy. Struck in the late 1850's and passed as a pattern of the first large cents. Really unusual design and very striking. Much original red. Has sales records as high as \$750.00. . . . . 495.00  
J-636 Ch Proof (60+) 1868 Shield Nickel. Aluminum R-7, regular dies trial piece. Very reasonable . . . . . 295.00  
J-772 Ch Proof (60+) 1869 Three Dollar Gold. Copper R-7, regular dies trial piece. Definately the most reasonable \$3 pattern on the market. Recommended at. . . . . 1,295.00

# Commemorative Halves

## Choice Brilliant Uncirculated (60+)

A Commemorative issue which has seen no circulation and has full luster. The coin will be completely as struck. The coin may have bagmarks which were acquired through normal handling through the years. Commemoratives in this grade are of better than average quality uncirculated specimens.

## Gem Brilliant Uncirculated (65)

This is an uncirculated coin which has a strong strike for the issue and a minimum number of bagmarks. These coins will have full brilliance, but may be naturally toned.

Commemoratives are seldom found any better than this. In short, coins which meet this grade are the finest quality available on the market.

# How Rare Is It?

by Walter Breen

With 1815 Half Dollars we once again reach a date about which much nonsense has been palmed off on the unwary. The date is barely scarce in ordinary condition, and there have been quite a number of hoarders. Over 90% of the "uncirculated" examples offered at auction, in mail bid sales, or in convention bourses, are XF's and AU's with the usual rubbing on high points, curl behind the ear, ribbons, forelock, and lower curls right of the clasp even when they show some mint lustre. Well-struck, flawless uncirculateds are rare enough to justify their recent records.

In 1817 there was one fabulous rarity that has actually remained so: this is the 1817/14, Overton 102 and 102A (reverse is same as the 181.7: I's like J's). The first one reported was discovered by E. T. Wallis in 1930. The first one seen in modern times was in one of Al Overton's sales early in 1953. At the time I was going over the Lou's Eliasberg Collection, separating duplicates and pieces that needed improvement, classifying many coins by variety. Eliasberg told me that he had just been awarded the 1817/14, at \$1,500. I thought this price high at the time, but agreed that the coin belonged with his other half dollars. The ensuing 19 years, as I expected, have brought out a few more specimens. Either 5 or 6 are now reported, none to date sharper than the piece pictured as Ov. 102a.

There is a single leaf coin for 1817 (Ov. 106a), similar to that described for 1814, and with the same cause: it is still R-5.

For many years the three varieties of 1822/21, (Beistle 3C, 7G, 8H) were believed to be very rare, one even controversial. The trouble was that most of the known examples were in worn condition. Intensive search by a few specialists has downgraded B.8-H (Ov. 101) to R-3, though it is usually found in VF or lower grades; Ov. 102 (B.7-G) is still rare, and Overton refused to admit an overdate for his number 106 (B.3C), though early die states do show it about as plainly as the other two which is not saying much. All three are rare in mint state.

In 1827, there are a couple of rarities worth notice. First is the reverse with small c in 50 c., found on Ov. 122 and 138, both R-6. There are no auction records recent enough to mean anything. Second is the curve based 2, Ov. 146 and 147, the latter with arrow just free of A (on the commoner die it touches); the 147 is low R-6, but both varieties are very seldom offered in really uncirculated state.

None of the 1828 types in grades below can be called more than very scarce now, due to assiduous cherry-picking over the last 12 or 15 years. All of the various types with large 8's are rare or very rare in genuinely mint state. Of the small 8 coins, only Ov. 119 (small letters; 'STA' recut) qualifies as rare, and for many years this naked-eye type was omitted from the Red Book because authentic examples were not offered at auction. The cherry-pickers have helped remedy that situation; the piece is R-5 but almost unobtainable in full mint state.

Why the Red Book continues to ignore the difference between large and small letters in 1829 is a mystery, especially since the distinction is now made for 1828. The 1829 large letter coins (Ov. 110 and 116, former with UNITEDSTATES as one word) are both scarce in all grades. The size difference is about the same as shown for 1828. On the other hand, the 1820 with large letters (Ov. 114) is so rare that its existence was controversial for generations. I have never handled one, but the photograph in Overton is convincing enough.

There is nothing else worth special comment until 1834, which is marked by one odd rarity. This has small date and letters, head of '35, but '34 was first cut much too low and corrected, and on reverse R is cut over I, with part of upright showing at right. I discovered the variety in 1968 or 1969; it is now a high R-6.

1836 is notable for the famous blunder, 50 over 00. This usually comes in Good to Fine, and the vast majority of specimens are from a lapped die state with only a light trace of the left curve of 0 showing at left of 5; it is listed as R-5. Early impressions, with most of the 0 visible left and right of 5, are very rare; four proofs are traced and less than five business strikes anywhere near uncirculated.

Everyone knows that there were only 10, 1838 O Halves made in January, 1839, to test a new press and that all were struck as proofs, though two have become somewhat impaired. But far more surprising was the discovery that at least four 1839 O's are also authentic proofs, occasion for manufacture unknown. They are equal in quality to the 1838 O's and most Philadelphia coins of the period. In ordinary grade this coin is much overrated because hundreds remain in hoards, and because date and type collectors covet it as the only obtainable Half Dollar with the mintmark above date, parallel to the Quarter Eagle and Half Eagle of the same years.

“I believe Steve Ivy offers  
valuable assistance and service to  
a select group of collector/investors  
through a totally new concept  
in buying rare coins.”

Dr. Alan Coleman. A highly esteemed financial authority, with over 24 years experience in the world of finance.

Steve Ivy. The President and founder of Steve Ivy Rare Coin Co. — one of the most well-established and trusted rare coin dealerships in the United States.

Together. Dr. Coleman, in a consulting role, contributes his talents, knowledge and experience to Steve Ivy and his staff of numismatic experts in bringing selected collector/investors a new and reliable avenue in rare coin buying.

If you spend approximately \$10,000 or more a year on rare coins, the Steve Ivy Select Collector program can be of great service to you. When you enroll in our program, you're under no obligation to spend a fixed amount with us, yet you'll still receive every benefit our program offers:

1. *The best value attainable.* A major concern among collector/investors of rare coins is whether or not they will receive the best value for their dollar. In terms of quality and price, our Select Collectors are assured of the best possible value.

2. *Margin-of-profit savings.* Usually, a 20% margin-of-profit is essential for a rare coin company to make a profit. This "mark up" is actually a service cost normally attributed to the high travel expense and extensive advertising required to locate and obtain the coins our customers desire. However, by servicing the needs of collector/investors who have a large budget for rare coins, we can afford to narrow our profit margin and still operate at a profitable level — providing significant savings to you in the process.

3. *Service second to none.* In almost every case, our company can help the collector/investor with specific needs. We'll help negotiate the purchase of any coin you desire from any other firm. We'll bid in public auction for you. We'll give you special consideration on the pricing of any coin in our inventory and on any coin that may benefit your collection.

4. *Special auction commissions for you.* This is an exclusive benefit of the Steve Ivy Select Collector program and should be of

great importance to the astute rare coin buyer: any coin purchased through this program can be sold through our affiliate company — Steve Ivy Numismatic Auctions, Inc. — at very low and special commission rates. When you sell your coins in this way, the net price realized to you will be much greater than usual.

5. *Guaranteed Grading.* Steve Ivy is the originator of The Guaranteed Grading System. This means that any coin you purchase from our company will conform to the standards of the proposed A.N.A. Grading Board.

6. *Personal attention.* When you enter our program — *at no obligation to you* — Steve Ivy or a member of his staff will fly to your city to meet with you or arrange for your visit to our offices in Dallas. Dr. Coleman and Steve Ivy will explain every detail of our program to you. Then, Dr. Coleman will develop your personal financial management program, complete with a tax plan and numismatic package. All transactions concerning your program will be handled by Steve Ivy and his professionally experienced numismatic staff.

The Steve Ivy Select Collector Program. Its advantages are many and appealing to the concerned and seeking collector/investor of rare coins. Dr. Coleman's expert financial guidance, together with the talented resources of Steve Ivy and his multi-million dollar sales organization, make this an exceptional program for all rare coin collector/investors. If our special service sounds intriguing to you, contact us by letter or phone for enrollment information. It'll be well worth your time.

We often buy coins we never advertise for re-sale. The reason? One of our customers had a want list on file with us which requested these coins and they went directly to that customer.

Often we can sell want list coins at a lower price since we do not have to include the cost of advertising them.

Several of our staff are want list specialists. Please give us the opportunity of showing what we can locate for you . . . at a reasonable price.

## A Great A.N.A.

Another A.N.A. has passed and congratulations are again in order for all those associated with the production of this major numismatic event. The 1976 A.N.A. proved to be a record breaker in many categories. As for our company, we had ten employees on the bourse floor continually in search of high quality coins. The end result of our buying activity was over 1,000 new coins. These new coins include many extremely rare items as well as a fantastic selection of Gold Patterns in off-metals.

## Many New Purchases

In addition to containing another full page of color pictures, our September catalog features over \$500,000 in new purchases for your inspection. Included in our A.N.A. purchases are several collections, one of which has resided in the former owner's safe deposit box for over 40 years.

## Highlights of the Catalog

During the last 30 days, we have purchased a few select coins that we thought we would never see, let alone offer for sale. Among an amazing selection of rare Early Quarters, we are offering a Gem Proof 1822 25 over 50c. The coin in itself is rare, but there probably are no more than two or three specimens of this quality. Located in Quarter Eagles is a magnificent specimen of 1875 in Ch Proof. This coin is rare, both as a \$2-1/2 and a \$5. In the \$5 denomination, the 1875 has recorded a sale of \$91,000. In the Early Half Eagles, we have listed an 1833 in Ch BU and an 1834 in Gem BU. The offering of both of these rare date Fives in Mint State is certainly one of the highlights of this year.

*Pictured on the cover are the following coins: 1879 Trade Dollar (Reverse) in Gem Proof (65+), 1909 Barber Half Dollar in Gem BU (65+), 1852 Seated Liberty Half Dollar in Gem BU (65+), 1835 Early Quarter Dollar (Reverse) in Gem BU (65+), and an 1861 Seated Liberty Dime (Reverse) in Gem BU (65+).*

The originator of the guaranteed grading system

Dear Customer & Friend:

We have just returned from the A.N.A. in New York and, as expected, the show was a smashing success. The attendance topped the 20,000 figure for the first time ever, and business was very heavy all during the six day event. In total, our firm purchased over a half million dollars worth of new coins.

Every year, the A.N.A. convention seems to set the pace for the following twelve months. Judging from the activity in New York, we believe that the next twelve months will be very active indeed. In addition to our heavy buying, our sales reached record proportions.

While collector demand remained steady during the past twelve months, investor demand now seems to be on the rise. It appears that most people believe sometime after the election in November inflation will again climb. Several noted economists have indicated they would not be surprised by another encounter of double-digit inflation towards the end of 1977.

In all, we have over 1,000 new coins in this catalog. Almost without exception, we feel each coin represents excellent value. As always, order early to avoid disappointment.

Sincerely,

A handwritten signature in cursive script that reads "Steve".

Steve Ivy

# Rare United States Coins For Sale

All photographs are of the actual coins offered for sale. In order to best depict the exquisite coins in this offering, full color plates have been provided for your inspection and enjoyment. The color plates are located on pages 1, 6, 9, 22, 25, and 30.

The numbers shown in parenthesis in the Colonial section refer to the page number where the coin can be found in The Guide Book of United States Coins by R. S. Yeoman.

## COLONIALS

- 1652 AU (50) Massachusetts Pine Tree Threepence. Wide, thin planchet. By far the finest example we have ever handled. (p. 16) (see color photo). . . . . 2,150.00
- 1766 VF (25) Pitt Halfpenny. Struck as a Commemorative medalet to William Pitt, with regard to his efforts to remand the Stamp Act. (p. 21) Only. . . . . 425.00
- 1786 Fair (2) Non Vi Virtute Vici Cent (New York). Scarce and desirable issue, although not exceptional in terms of condition. Fully identifiable as to type. This coin is virtually never seen below VF, with auction records for that grade in the \$7,000 range. This coin is priced for the collector who is interested in a bargain priced example. Interesting coin. (p. 24). . . . . 975.00
- 1787 EF (40) Connecticut Cent. Horned bust variety. (p. 29). . . . . 195.00

## Ever Popular 1776 Continental Dollar.

- 1776 EF/AU (45+) Continental Dollar. "Currency". No "E. G. Fecit". The scarcest collectible variety in pewter. From an early B. Max Mehl auction sale. The *Guide Book* lists an evaluation of \$12,000 in EF. We have priced our attractive example to sell quickly. (p. 34) (see color photo). . . . . 3,750.00

- 1767 VF (20) French Colonies Sou. Counterstamped "RF" for "Republique Francaise". (p. 40). . . . . 90.00
- 1781 VF (20) North American Token. One of the Colonial issues which is seen less than its price would indicate. (p. 40). . . . . 65.00
- 1760 Fine (15) Hibernia Voce Populi Halfpenny. "P" before bust variety. Nelson 12. (p. 50). . . . . 95.00
- 1760 VF (20) Hibernia Voce Populi Halfpenny. "P" before bust variety. Nelson 12. (p. 50). . . . . 110.00
- 1783 VG (8) Georgious Triumpho Token. (p. 51). . . . . 50.00
- 1783 F/VF (15+) Washington Cent. Large military bust. (p. 52). . . . . 50.00

- 1783 Ch Proof (60+) Washington Cent. Draped bust. Copper restrike. Plain edge. Much scarcer than the engrailed edge variety. (p. 52). . . . . 325.00
- 1783 VG (10) Washington/Double-Headed Cent. (p. 52). . . . . 50.00
- 1795 VF/EF (35+) Washington Halfpenny Grate Token. Small buttons, reeded edge. Much scarcer variety. (p. 54). . . . . 225.00
- 1795 VF (20+) Washington/Liberty and Security Halfpenny. Birmingham edge. Some slight surface scratches. (p. 55). . . . . 175.00
- 1795 VF/EF (35) Washington/Liberty and Security Halfpenny. London edge. (p. 55). . . . . 225.00
- 1795 VF (35) Mule of Irish Halfpenny obverse and the Liberty and Security reverse used on the Washington pieces. Seldom offered. (p. 55). . . . . 135.00
- 1795 EF (45) Washington/Liberty and Security Penny. Edge lettered, "An Asylum for the Oppressed of all Nations". A scarce issue in the higher grades, as these coins generally saw much circulation. (p. 55). . . . . 395.00
- 1787 AU (50) Fugio Cent. N-13X. Pleasing brown example with two minor planchet flaws. . . . . 250.00

## HALF CENTS

- 1806 Ch Brown Unc (60+) Beautiful, glossy brown surfaces. (see color photo). . . . . 675.00
- 1806 Ch R&B Unc (60+) Pleasing surfaces with tinges of red. . . . . 975.00

## Outstanding 1806 Draped Bust Half Cent.

- 1806 Gem Red Unc (65) This coin has 80% of its original mint red and is very rare as such. Many of the early Coppers have been cleaned and recolored to give them the appearance of original mint red coins. This has acted to depress the value of the genuine item. We feel that, at today's level, these coins represent excellent value. (see color photo). . . . . 1,650.00

| 1833 EF (40) . . . . .                                                                                                                           | 50.00  |
| 1833 Gem Brown Unc (65) Fantastic obverse toning. Greens and golds covering the surface. An exceptional coin . . . . .                           | 275.00 |
| 1853 EF (45) . . . . .                                                                                                                           | 55.00  |
| 1853 EF/AU (45+) . . . . .                                                                                                                       | 75.00  |
| 1853 Gem R&B Unc (65) A very pleasing coin with mostly red surfaces fading into brown. A scarce type coin. . . . .                               | 450.00 |
| 1854 Brown Unc (60) . . . . .                                                                                                                    | 155.00 |
| 1855 Gem BU (65) Beautiful original color. As with the draped bust type, these are very rare in this original state. (see color photo) . . . . . | 795.00 |
| 1855 Gem BU (65+) Superb! Full red. One of the nicest braided hair Half Cent's we have seen. (see color photo) . . . . .                         | 995.00 |

## LARGE CENTS

## Exceptional 1793 Chain Cent.

1793 EF/AU (45+) Chain type. An extremely pleasing example of our nation's first Cent. This coin has amazing hair detail and nice color. Aside from one small rim bump, it is devoid of the characteristic defects of this issue. An excellent opportunity for the advanced type collector. (see color photo) . . . . . 7,950.00

|                                                                                                                             |          |
|-----------------------------------------------------------------------------------------------------------------------------|----------|
| 1793 AG (3) Wreath type. No defects . . . . .                                                                               | 265.00   |
| 1793 Fine (12) Liberty Cap type. A very clean specimen with a clean planchet. The reverse has claims to Very Fine . . . . . | 1,500.00 |
| 1794 VF (25) Excellent hair detail and several minor nicks on obverse, but not serious . . . . .                            | 195.00   |

## Mint State 1794 Cent.

1794 Ch R&B Unc (60+) This is one of the four or five nicest 1794 Large Cents we have ever seen. The coin has quite a bit of the original mint red with the remainder of the surfaces being a beautiful, glossy brown. The coin is very well struck. The planchet has several cracks on the obverse, which is typical of many early Coppers. In addition, there is one die break between the "I" and "B" of "LIBERTY". Without a doubt this is the finest 1794 Large Cent on the market at this time. It is somewhat inferior to a piece that brought \$13,000 at the Miami A.N.A. in 1974. Would fit into the finest type set. Museum quality. (see color photo) . . . . . 7,500.00

|                                                                                                                                                                        |          |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------|
| 1795 VG (8) Scarce lettered edge type . . . . .                                                                                                                        | 125.00   |
| 1796 Good (6) Second reverse. No damage or defects. . . . .                                                                                                            | 55.00    |
| 1797 VF (30) S-12K. Period before throat variety. "UNITED" virtually indistinct, but remainder of reverse strong. Beautiful obverse color. . . . .                     | 195.00   |
| 1797 EF (40) Very sharp hair details and no problems whatsoever. . . . .                                                                                               | 450.00   |
| 1798 EF (45) S-166. Very clean overall. Well struck with nice medium brown surfaces and almost full hair detail. . . . .                                               | 475.00   |
| 1800/99 Ch AU (55) Perfect surfaces and lovely brown color. This is the grade commonly offered as Unc. . . . .                                                         | 850.00   |
| 1800 EF (45) Another pleasing piece with no problems. . . . .                                                                                                          | 475.00   |
| 1805 AU (50) Perfect surfaces with a trace of mint red. (see color photo) . . . . .                                                                                    | 650.00   |
| 1812 VF/EF (35+) A very pleasing coin. . . . .                                                                                                                         | 195.00   |
| 1812 EF/AU (45+) Lovely surfaces and an ideal piece for type . . . . .                                                                                                 | 450.00   |
| 1812 Ch Unc (60+) Beautiful, glossy brown surfaces. Very undervalued for type and, considering the softness of metal used, much rarer than generally realized. . . . . | 1,500.00 |
| 1814 Gem Brown Unc (65) Beautiful, glossy brown color. Fully struck with perfect surfaces. (see color photo) . . . . .                                                 | 2,250.00 |
| 1820 Ch R&B Unc (60+) Very pleasing. We feel Randall Hoard specimens are still undervalued . . . . .                                                                   | 425.00   |
| 1820 Ch BU (60+) Very attractive red coin . . . . .                                                                                                                    | 475.00   |
| 1820 Gem R&B Unc (65) Sharply struck with very nice color. The reverse is virtually full red. No carbon whatsoever. (see color photo) . . . . .                        | 595.00   |
| 1821 VG (8) . . . . .                                                                                                                                                  | 35.00    |
| 1822 AU (50) Nice chocolate color. . . . .                                                                                                                             | 195.00   |
| 1833 Gem R&B Unc (65) Satiny surface. No marks of any kind. Much mint red still adheres. A very beautiful coin. (see color photo) . . . . .                            | 895.00   |
| 1838 Ch AU (55) . . . . .                                                                                                                                              | 160.00   |
| 1838 Ch Brown Unc (60+) Glossy brown luster. . . . .                                                                                                                   | 275.00   |
| 1843 Ch BU (60+) Type of 1844 . . . . .                                                                                                                                | 675.00   |

| 1856-O Gem BU (65) This coin is beautifully toned, but under careful examination, it shows some light scratches in the obverse field. Otherwise, the coin is superb in every respect. If it were not for the scratches, we would ask in excess of \$3,500 for this extremely rare Mint State coin. We feel our asking price is very fair. (see color photo) . . . . . | 1,175.00 |

## Extremely Rare 1859 Transitional Dime.

1859 Ch Proof (60+) This is the first example of this rare transitional date we have ever owned. It is known as "the coin without a country" because the inscription "United States of America" does not appear on the coin. Previous to this time, the inscription had appeared on the obverse. Beginning in 1860, the inscription was placed on the reverse. This piece is listed as an R-6 with 13 to 30 pieces struck. Judging from our own experience, we would estimate that less than 7 or 8 pieces exist in this grade. Because of its extreme scarcity, very few meaningful auction records exist. The 1859 Transitional Half Dime, which is generally considered to be a more common coin, traded hands last year at over \$8,000. This is one of the rarest U.S. silver coins and is much rarer than many coins that sell for much more. (see color photo) Attractively priced at . . . . . 9,500.00

## Rare Carson City Twenty Cent Piece.

1875-CC Ch BU (60+) Nice luster with slight golden toning. Some weakness on the eagle's right wing, but overall a strong strike and much better than average. A full strike Gem recently sold for \$3,600. Ours is not quite that nice, but is priced reasonably. (see color photo) . . . . . 1,650.00

1878 Ch Proof (60+) Fully reflective surfaces with a light golden toning. A very few trivial hairlines keep it out of the Gem class. (see color photo). . . . . 1,575.00

## EARLY QUARTERS

## Exquisite 1796 Quarter Dollar.

1796 Ch AU (55+) Only the slightest bit of rub keeps this coin from being fully Mint State. This coin has the most gorgeous toning imaginable with no defects of any kind. This coin would fit well into the nicest type set. (see color photo). Priced very fairly at. . . . . 10,500.00

## Excessively Rare 1822 Quarter Dollar.

1822 Gem Proof (65) 25 over 50c. This is an extremely rare coin of which we can account for only one or two other pieces. The die cutter apparently thought he was working on a Half Dollar die and then corrected his error. This coin is very rare in all grades and probably approaches the heralded 1823 in rarity. This piece is a sparkling Gem with beautiful gold and blue toning. A truly outstanding coin. (see color photo). . . . . P.O.R.

1822 VF (20) Scarce. Seldom seen date. . . . . 185.00  
1825/3 BU (60) "L" counterstamp above head. One of the more interesting early varieties of U.S. coins. . . 1,250.00

## Heralded 1827 Quarter Dollar.

1827 Ch Proof (60+) Restrike. The 1827 Quarter is the contemporary of the other famous restrike issues, including the 1804 Dollar, struck during the late 1850's and early 1860's, under the auspices of several mint employees. The 1827 Restrike Quarter in silver is not a pattern issue and a limited number were coined solely to satisfy collector demand for the date (as the 1827 Original, curl base 2, had already been recognized as a rarity). The following excerpt from a letter dated January 22, 1859 from James Ross Snowden, Director of the Mint, to Secretary of the Treasury, Howell Cobb, sheds a bit of light on the subject:

Sir,  
We are daily pressed upon, by collectors of coins from all parts of the country either by letter or in person, for specimens of pattern pieces of coins, and rare types. A few of these have been in every case issued—some of them got into the hands of dealers and are sold at excessive prices. I propose, with your approbation, to check this traffic, and at the same time gratify a taste which has lately increased in this country, and seems to be increasing everyday, namely by striking some of each kind and affixing a price to them, so that the profits may enure to the benefit of the Mint Cabinet of Coins and Ores which is the property of the United States; an exact amount of which will be kept and rendered to the Department.

The presently offered specimen of the 1827 Restrike Quarter was probably an early impression from the dies,

as it is struck from very lightly rusted dies and has exceptionally brilliant surfaces. Its pedigree can be traced to the R. L. Miles Collection, and is one of only 9 known specimens. The issue is of virtually the same rarity as the 1827 Original Quarter, a specimen of which is on the market at a price approaching six figures. To own a coin of this magnitude, a truly romantic issue, would represent a gratifying experience for the connoisseur of American numismatic rarities. (see color photo). . . . . 24,500.00

### Choice 1797 Small Eagle Dollar.

1797 Ch BU (60+) Small eagle. 10 stars by 6 stars. A few  
very light adjustment marks on obverse. Fully brilliant  
and fully struck. This is the most outstanding Small  
Eagle Dollar to appear on the market in the last 18  
months. Actually, this coin is superior to examples that  
have sold at higher prices and is much rarer as a date  
than 1795. Well worth . . . . . 19,500.00

## Important And Extremely Rare 1875 Quarter Eagle.

1875 Ch Proof (60+) This coin is one of the great rarities of United States gold coinage. This date has a total mintage of only 420 pieces (20 Proofs, 400 Business Strikes). It is fully brilliant with only a few very trivial hairlines. Probably no more than five pieces of the Proof coinage can claim to be equal to this specimen. In our opinion, this is one of the most underrated gold coins in terms of price. As an example, an 1875 \$5 in Proof condition just brought \$91,000 in the Garrett Sale. Previous to that, an Extremely Fine coin brought \$60,000. The \$2-1/2 and the \$5 have exactly the same Proof mintage (20). The Business Strike issues are 200 vs. 400, of which probably less than 5% are known. We feel this is an excellent opportunity for the astute buyer. (see color photo) . . . . . 28,500.00

### Superb Prooflike 1872 Three Dollar Gold Piece.

1872 Gem BU (65+) Superb! At first glance, appears to be a Proof. An absolutely incredible coin! Without a doubt the nicest gold coin we have in stock. It is fully struck with prooflike surfaces. Actually, in this grade, it is much rarer than the Proof. An important opportunity for the quality conscious collector. (see color photo) . . . . . 6,500.00

### HALF EAGLES

1802/1 Ch BU (60+) Excellent color. 53,176 minted. Scarce coin in higher grades. (see color photo) 2,950.00

### Gem Quality 1805 Capped Bust Half Eagle.

1805 Gem BU (65) Super strike with nice color. 33,183 minted. Much scarcer date in Mint State than most of the others in this series. (see color photo). . . . . 3,750.00

## HALF EAGLES, (CONT'D)

1807 AU (50) Bust right. Perfect for type with no defects or damage. Recommended at these low levels . . . 1,550.00  
1807 Fine (15) Bust left. First year of issue . . . . 595.00

### Very Rare 1833 Mint State Half Eagle.

1833 Ch BU (60+) An extremely rare date, as most were probably melted. Probably less than 7 to 8 pieces of this date can take claim to the Mint State grade. An excellent type coin for the gold specialist. (see color photo). . . . .11,500.00

### Gem 1834 Half Eagle.

1834 Gem BU (65) Plain four. This coin was Lot No. 1045 of the Bowers & Ruddy Austin Sale in 1974, where it brought \$27,000. Walter Breen can only trace two Mint State specimens of this date and type in existence. It has lovely color with a prooflike reverse. In addition, it is a virtual full strike. A beautiful coin indeed, and worthy of the finest cabinet. Priced very fairly. (see color photo). . . . .22,500.00

1835 AU (50) Classic head design. . . . . 650.00

| 1861-S Paquet EF/AU (45+) The reverse designed by Anthony Paquet. These new reverse dies, featuring tall, narrow letters, were sent to the branch mints which struck the denomination. A trial striking at Philadelphia of two examples on January 5, 1861, showed the new die to be unsuitable for regular issue coinage. James Pollack, Director of the Mint, sent messages to New Orleans and San Francisco, suspending further use of the die. The message arrived at New Orleans but failed to reach San Francisco, due to rather primitive travel conditions and lack of a telegraph. In the interim, 19,250 were struck at San Francisco using the Paquet reverse. When word reached the mint, most of these were melted and recoinced using a leftover regular reverse die. A few reached circulation. An immensely desirable and historical issue and one of the finer examples to appear for public sale. | 7,500.00 |
| 1863-S Ch BU (60+) This date has recorded sales in excess of \$3,000 for this grade                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 | 1,750.00 |

## PATTERNS

*Approximately two and one-half years ago, when the Dr. Judd Collection of Patterns came on the market, the prices of Patterns sky-rocketed. They went up so fast and so much that after the Judd Collection was dispersed, the great demand that had preceded the Collection subsided. The last year has been one of relative quiet for Patterns. Prices have leveled off to a point where the demand is again very high. Our present offering is comprised of almost entirely gold coins struck in off-metals. Almost without exception, each coin is an R-7 or R-8. Most of these coins have not been on the market for many, many years. We have priced each coin at what we consider very fair levels. We feel this is an excellent opportunity for the astute buyer.*

# Commemorative Halves

## Choice Brilliant Uncirculated (60+)

A Commemorative issue which has seen no circulation and has full luster. The coin will be completely as struck. The coin may have bagmarks which were acquired through normal handling through the years. Commemoratives in this grade are of better than average quality uncirculated specimens.

## Gem Brilliant Uncirculated (65)

This is an uncirculated coin which has a strong strike for the issue and a minimum number of bagmarks. These coins will have full brilliance, but may be naturally toned.

Commemoratives are seldom found any better than this. In short, coins which meet this grade are the finest quality available on the market.
